Ramos&Bassols

After several years of experience in different fields such as urban furniture, tableware, lighting and office furniture, etc... David Ramos and Jordi Bassols have created in 2004 Ramos + Bassols studio.

Based in Barcelona, they offer a personal view on contemporary design. "We always search the balance between form, function and aesthetics in our products". In the last years, the studio has received several international awards such as: Hospitality Design Product 2010, International Interior Design Association 2010 award, The IF Design award 2015, the Red Dot Award 2015, and the Gold award Best of Neocon in 2016.

Comfort at First Sight

Collection designed by Ramos&Bassols, 2019

Designed by Ramos&Bassols, the Copa family joined to the collection to represent the best version of comfort. Moreover, in just one year, it has managed to become one of our best sellers. It has home friendly shapes, elegant lines for office environments and espe-

cially sensual for spaces dedicated to hospitality. Its generously proportioned seat has been able to convince all kinds of audiences. This is so because, visually, its design is a promise of comfort. It is the headline of a story that was just coming up.

Copa collection with multiple finishes and legs

Copa Wooden Base

The combination of austere forms and subtle details in turn results in a very balanced design with little extravagance.

The Ramos&Bassols studio has conceived this multi-purpose seat as the perfect ally when looking for comfort in your work space.
