

LEGACY SOFA

Legacy is a lounge collection characterised by its beautiful solid oak frame supporting the upholstery and embracing you within its wide armrests making the furniture interesting from every angle. Legacy is designed for larger modern spaces suitable for both residential and commercial use and is built to last for generations to come.

The Legacy 05001 is upholstered with chrome-free aniline leather made from the best European raw hides. Royal Nubuck has a natural grain and a smooth velvety finish that gives it a very special character.

The leather has a high breathability, which gives an amazing seating comfort and will become smoother and shiny in use. The Legacy series is available as a two-seat sofa and an armchair.

Foam cushioning is engineered from CMHR foam, fixed in a bent veneer frame for comfortable support, and complies with flammability requirements of the 'Crib 5' test.

Fabrics/leathers and COM available for contract market upon request.
