

# BOOSTER

Our Booster contains a powerful combination of carefully selected ingredients that target multiple mechanisms of ageing. This breakthrough supplement works in synergy with NMN for optimal NAD+ production within your body.

## HOW TO USE

We recommend taking one capsule daily, with or without food.

## WHEN TO USE

Ideally in the morning or early afternoon. Make sure to take the supplement around the same time everyday - ideally in combination with the Avea Booster for a synergetic effect and even better results.

Energy Boost

Fitness & Performance

KEY INGREDIENTS KEY INGREDIENTS KEY INGREDIENTS KEY INGREDIENTS KEY INGREDIENTS KEY INGREDIENTS

### RESVERATROL (150MG)

A polyphenol produced by plants as a defence mechanism against environmental stress. It is a very well researched compound with numerous health benefits to humans.

### UBIQUINOL COQ10 (100MG)

Active and more bioavailable form of CoQ10, a powerful antioxidant naturally present in the body.

### PTEROSTILBENE (50MG)

An antioxidant found naturally in some plants, fruits, and nuts that has been studied for its numerous health benefits.

### APIGENIN (50MG)

A natural flavonoid compound that protects plants against environmental stress and has shown promising benefits for humans.

### BETAINE (50MG)

A derivative of the amino acid glycine, which is made naturally by our bodies. Betaine has vitamin-like effects and properties.

## BENEFITS YOU CAN EXPECT

### First weeks

More energy and improved skin elasticity & hydration

### Long term

Feel & look younger and potentially reverse your biological age

### After a few months

Less inflammation and better cognitive function

## BOOSTER TAGLINE

Stay vibrant and energised with our unique antioxidant formulation.
