

Where we save you time and money

INSTOCK WINDOWS
ALUMINIUM WINDOWS & DOORS

Quality at an affordable Price

ABOUT US

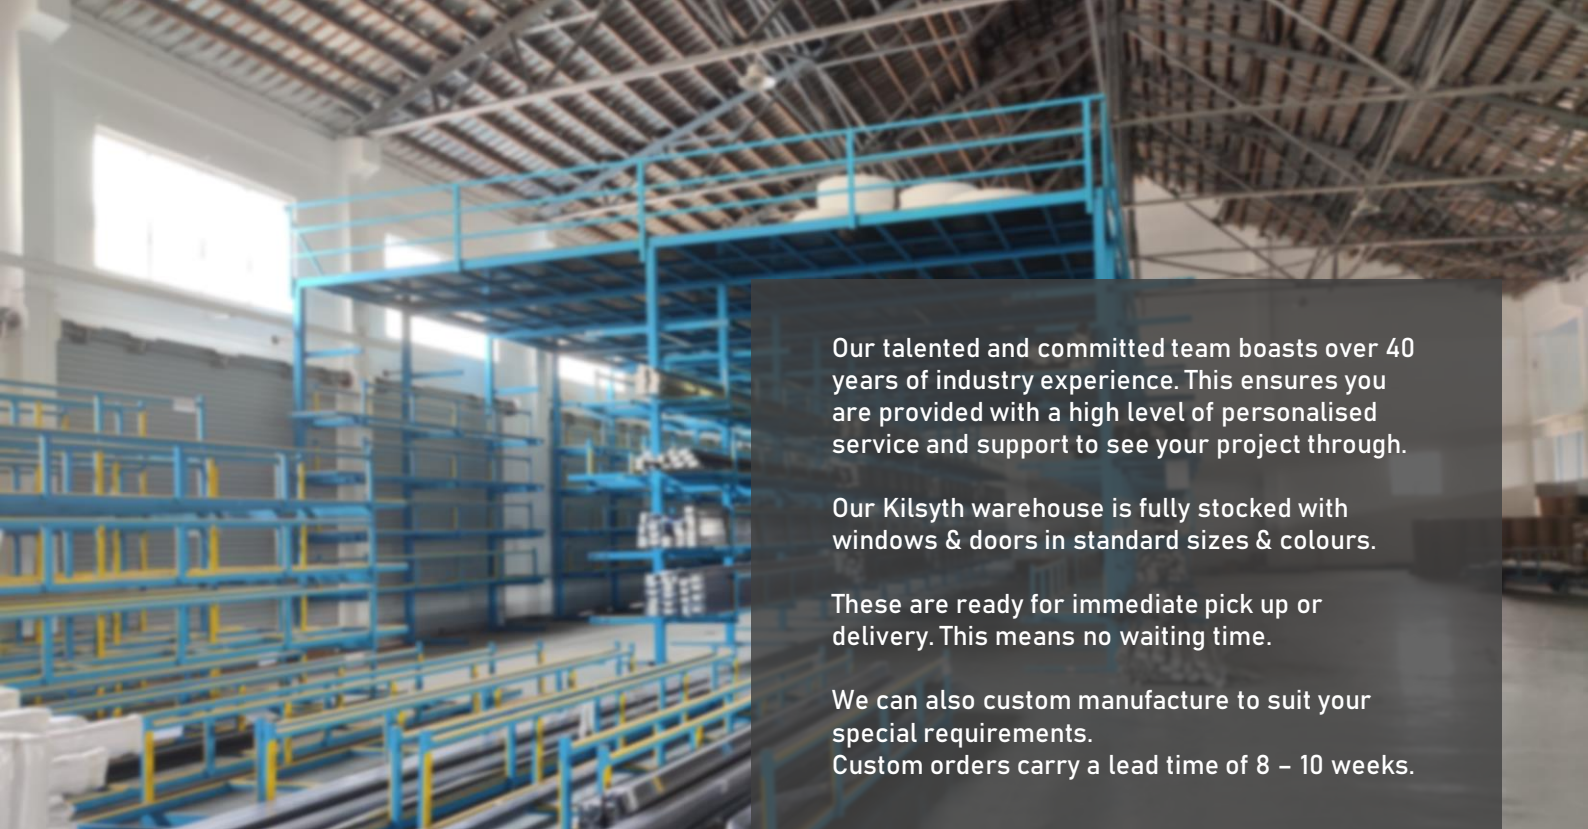

Instock Windows suppliers of quality aluminum windows and doors for the Australian residential building & renovating market.

We have an extensive worldwide network of suppliers and factories that we work closely with to deliver an outstanding product at an affordable price.

Our window and door system is our own patent based on years of R&D. We have worked closely with our builders, installers & glaziers to achieve an easy-to-install system that saves you installation time and money.

At Instock Windows we continue to refine our designs and streamline our processes to maximise supply capacity, packaging and configuration. This results in a faster and more economical delivery of products to you.

Our talented and committed team boasts over 40 years of industry experience. This ensures you are provided with a high level of personalised service and support to see your project through.

Our Kilsyth warehouse is fully stocked with windows & doors in standard sizes & colours.

These are ready for immediate pick up or delivery. This means no waiting time.

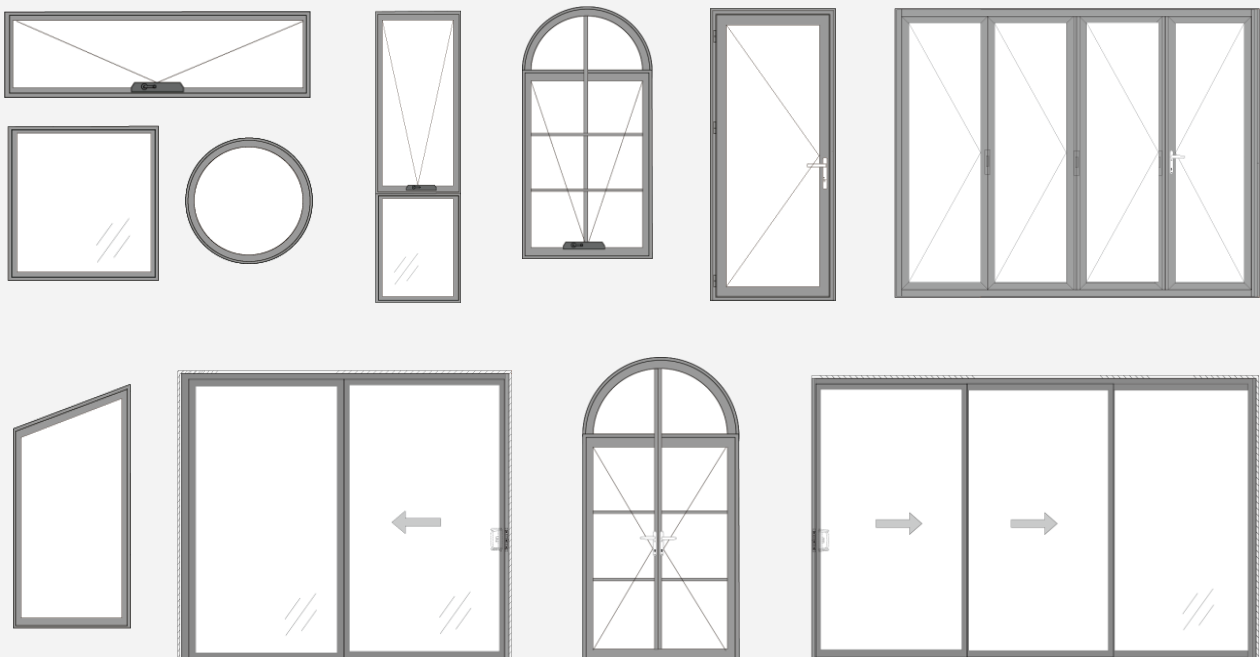

We can also custom manufacture to suit your special requirements. Custom orders carry a lead time of 8 – 10 weeks.

WINDOW AND DOOR TYPES

- Awning Windows
- Sliding Windows
- Fixed Windows
- French Doors
- Sliding Doors
- Bi Fold Doors

A sample of our Domestic and Architectural Windows and Doors range.

FEATURES

Jamb Seals

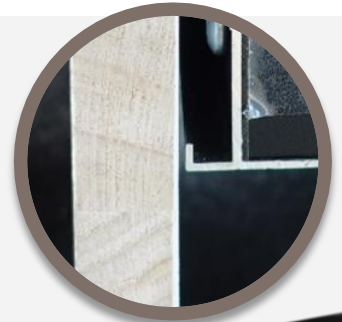

Renovations – Jamb Seals forms a tight fit between brickwork or cladding minimizing the need of flashing angles or trim covers.

New Builds – Meets Australian Standard for air tight installation and weatherproofing and clean finish.

Magnetic flyscreen

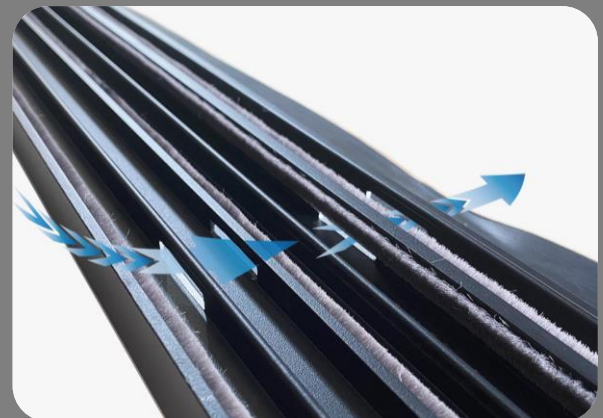

Strong and durable magnetic flyscreens with stainless steel mesh are supplied with all opening windows. These are long lasting and easy to install and remove for cleaning. Meets BAL Rating Requirements as well.

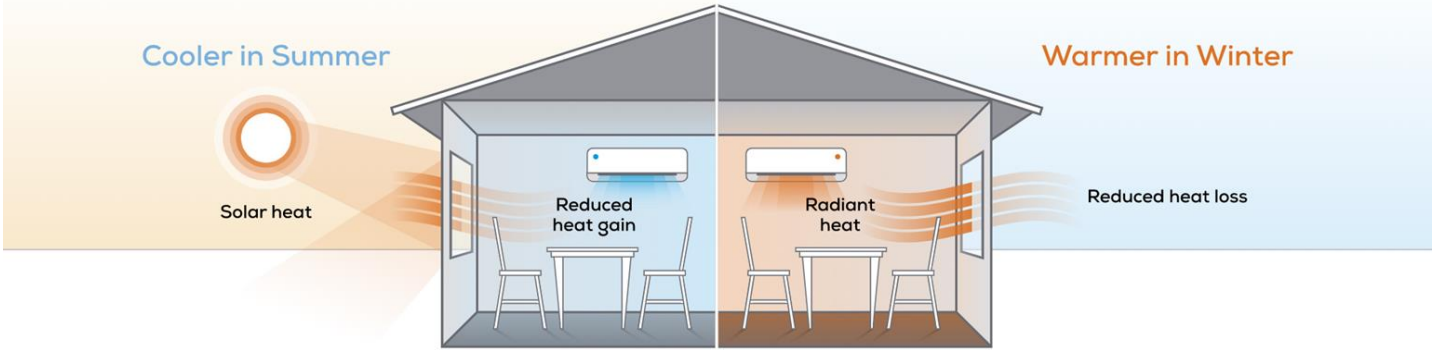

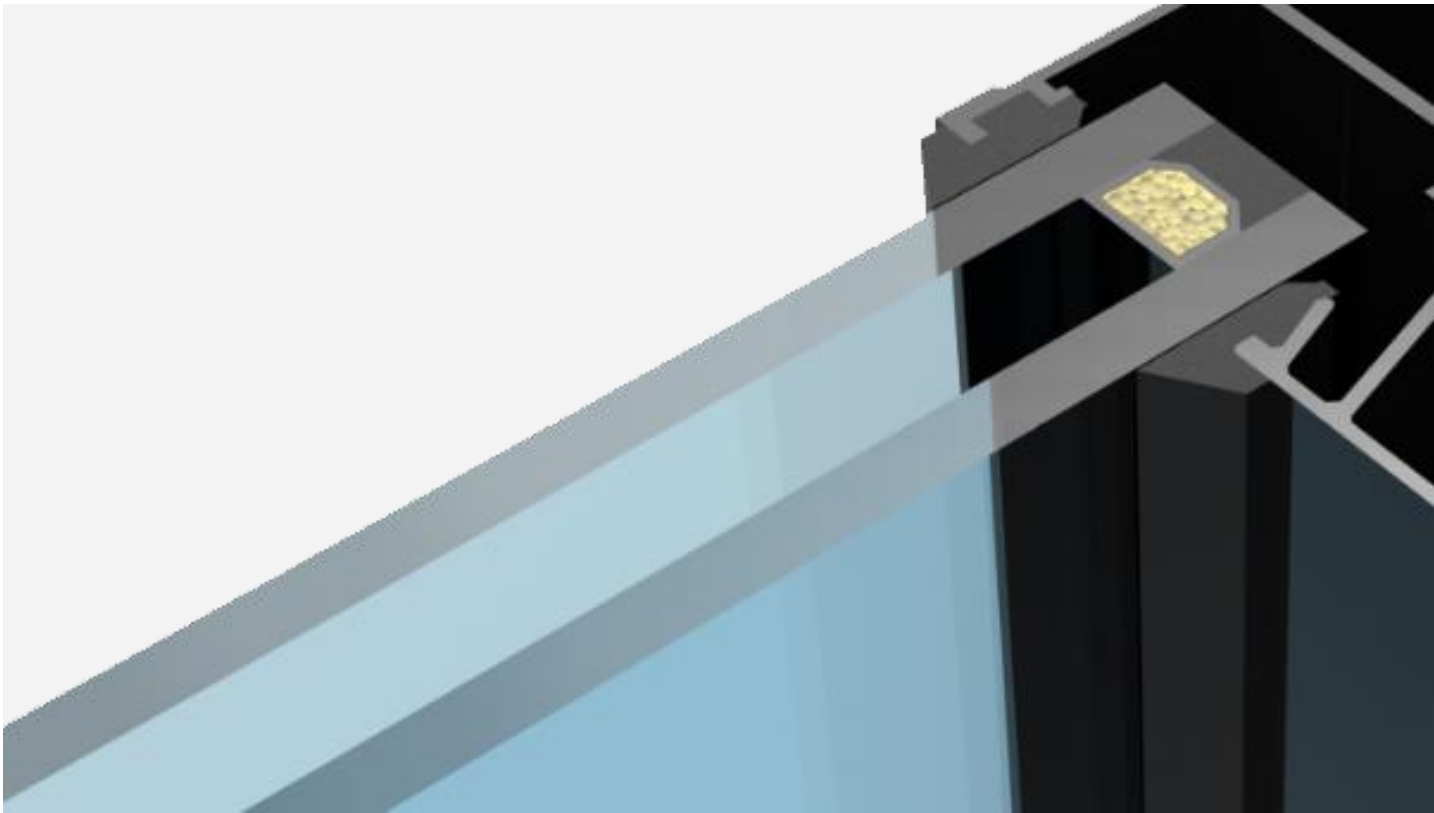

All windows come with a 60mm Bottom Weather Seal Fin that gives great water run off from rain penetration and all Stacker and Sliding Doors tracks have multiple drain holes.

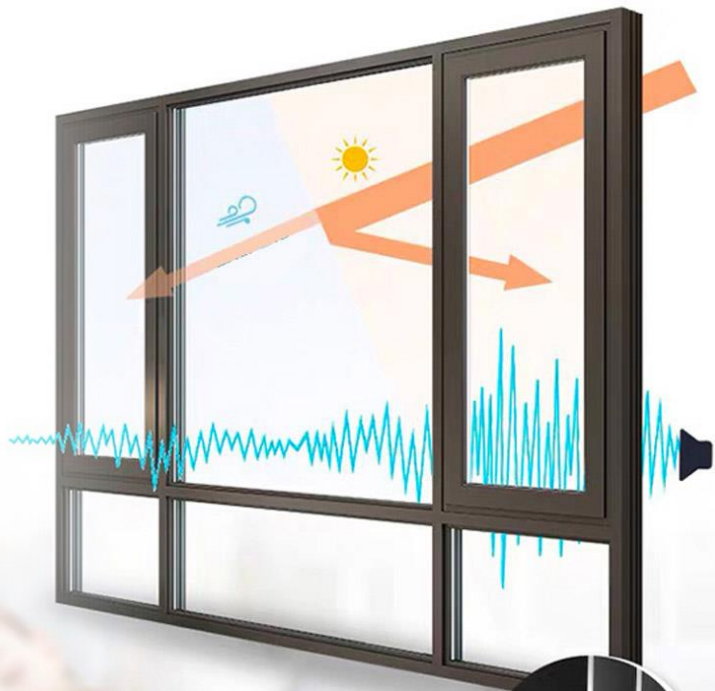

Mitre joins

Drainage design incorporated.

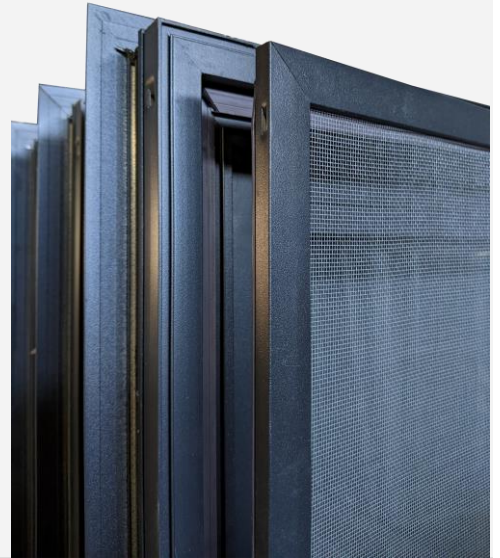

Thermally broken suites available on request

Double Glazing as Standard Inclusion on all Windows and Doors

Our windows and doors are available in a wide range of styles, configurations and sizes to suit a variety of new-build and renovations for architectural and domestic projects.

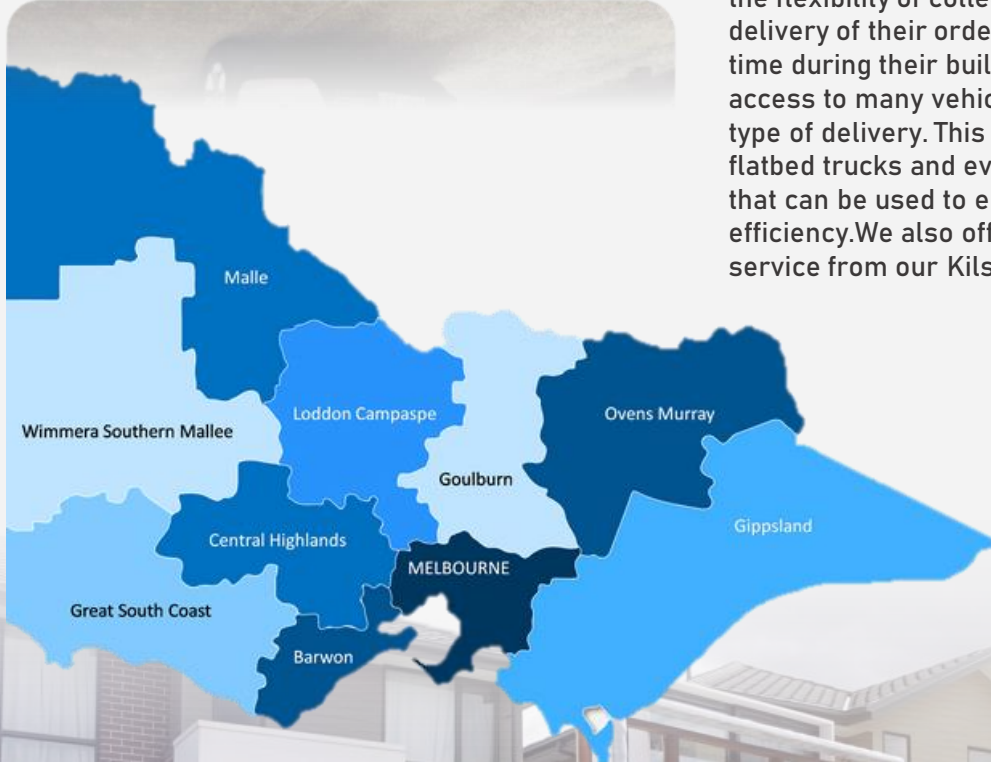

Weather Flashing Seal Tape can be purchased when purchasing our windows and doors.

DELIVERY/PICK UP

Our Melbourne headquarters are located at Kilsyth, where we operate a 2000 sqm warehouse. This warehouse has ample space to house our stock range plus this allows our customers the flexibility of collecting or receiving delivery of their orders at the perfect time during their build. We have access to many vehicles to suit every type of delivery. This extends to utes, flatbed trucks and even crane trucks that can be used to ensure maximum efficiency. We also offer a collection service from our Kilsyth warehouse.
