

## SUEDE SAVER™

*Suede Saver* was formulated specifically for conditioning suede or nubuck items. It will soften and condition these special items without leaving a heavy or oily feel. *Suede Saver* is easy to use and will dry quickly. It will not darken the color of your items.

### Directions

Do not dilute *Suede Saver*. For best penetration, lay the article on a flat surface prior to applying the *Suede Saver*. Spray an even coating to the surface of the item and allow to air dry. Generally, 1 coat will be sufficient, however, if the item is extremely dry, a second application can be applied.

Once the *Suede Saver* has completely dried, the surface can be lightly brushed with a *Suede Brush* to pull up nap that has been matted down.

Note: *Suede Saver* will not penetrate leather that has been treated with a stain guard or water proofer. Test a small area first.

### Coverage

An 8 oz size bottle will treat approximately 3 – 4 suede garments or 1 – 2 full size (3 cushion) sofas.

DISCLAIMER: Being that leather is a natural material and is susceptible to varying degrees of deterioration, experience of the user and may be applied under conditions beyond our control, as seller, we make no warranty expressed or implied as to this material or its use. All information stated herein is accurate to the best of our knowledge and is based on thorough testing.
