

## Installation Instructions Flooring Trims & Accessories

### Scotia 15mm

To cover expansion gaps at walls/vertical surfaces.

- Leave 10mm expansion (as per installation guides).
- Install after floor is laid. Use a multi-tool to ensure correct expansion gap if required.
- Pin/Brad/Glue to wall or vertical surface at **A**, not to flooring.
- Can also be used with Laminate Flooring

### Endcap 40mm

To cover expansion gaps at junctions with carpet/doorways and adjacent to external doorways like sliding aluminium doors.

- Leave 10mm expansion (as per installation guides).
- Install after floor is laid. Use a multi-tool to ensure correct expansion gap if required.
- Glue to subfloor with non-foaming polyurethane adhesive at **A**
- Hold in place with painters tape (and weights where required) for 24 hours – no foot traffic whilst the adhesive cures.

### T.Mould 45mm

To cover expansion gaps at doorways.

- Leave 10mm expansion (as per installation guides).
- Install after floor is laid. Use a multi-tool to ensure correct expansion gap if required.
- Glue to subfloor with non-foaming polyurethane adhesive at **A**
- Hold in place with painters' tape (and weights where required) for 24 hours – no foot traffic whilst the adhesive cures.

### Stair nosing 114mm

To professionally finish stairs.

- Step 1:** Remove underlay from risers and treads.
- Step 2:** Cut riser to finish flush with tread height.
- Step 3:** Measure and cut treads to finish flush with the Stair nosing, with the tread lock tray under the Stair nosing edge at **C**.
- Step 3:** Use non-foaming polyurethane adhesive (full coverage) to adhere the riser and tread to the staircase.
- Step 4:** Use non-foaming polyurethane adhesive (full coverage) to adhere the stair nosing on both **A** and **B** surfaces.
- Step 5:** Hold in place with painters' tape (and weights where required) for 24 hours – no foot traffic whilst the adhesive cures.
- Step 6:** As the stairs are now fully glued, they can be finished at edges/junctions with a matching caulking compound.
