<p>The Trolley design uses dividers as supports for strength vertically and horizontally. When a divider is removed the the support and strength for floors and dividers is also removed. Excess weight may allow the floors to bow thus eliminating secure fit for dividers. Weight exceeding the maximum weight limit voids trolley warranty.</p> <p>Extra Wide and Extra Long Trolleys are Special orders and do not include any warranty regarding weight performance.</p> <p>Excess weight is easy to identify as hinges will stretch and rivets will loosen under the excess weight.</p> <p>Purchaser assumes all risk for Special Order Trolleys.</p>
