Head Shield!!

Limits to use

The helmet life is affected by several factors, such as cold, heat, chemical products, sun light or misuse. A daily check should be performed in order to identify any sign of rendering (cracks, flaws) the helmet, its harness and accessories fragile. Any helmet having been subject to a strong shock or having wear signs should be replaced. Under normal usage conditions, this protective helmet should provide proper protection for 2 up to 3 years after the first usage, or 5 years according to the manufacturing date (written inside). If a sensitive person has an allergic reaction, remove the helmet and ask for medical advice.

Instructions for storage:

It should be stored in a dry cool place away from light, frost and in a location granting that no chemical product or sharp object bends it by falling above.

Mallcom Helmet provides superior protection to the skull and excellent durability

Instructions for cleaning:

This protective helmet may be cleaned and disinfected by means of a cloth impregnated in a low concentration cleaning solution. One shall not use any abrasive or corrosive chemical product. If this helmet cannot be cleaned by using this method, it should be replaced.

Performances:

This helmet complies with the AS NZS 1801:1997, notably regarding ergonomics, innocuousness, comfort and ventilation, and with AS NZS 1801:1997 standard. AS/NZS type examination and testing performed by **VicLab Pty Ltd, Address - 5/383 Dorset Road, Boronia, 3155, Victoria Australia**

Applications:

Steel manufacturing industries
Aluminum Smelting
Foundries & Casting
Metal recycling
Refractory production
Cement manufacturing industries
Construction sites
