About the DAbOX PRO

The DAbOX PRO is a temperature controlled portable wax vaporizer. It is the Pro version of our original DAbOX. It comes with the trademark DAbOX flipdoor. It now has a color screen to control the device. It comes standard with an embedded water filter. And last but not least it has 3 coils:

FireCore: One piece quartz dish closest experience to a dab rig.

Dual Clapton: Better flavor and more vapor production.

Dual Quartz: Quicker heat up time so it is more efficient if you are looking for speedy vape.

Features:

Flip Door tm

LED Screen

Water Filter

Temperature Control

Interchangeable Coil Heads(3 options)

List of Components

The DABOX PRO kit comes with the following:

1 * DABOX PRO Device

2 * O Rings

1 * Dual Quartz Clapton
Coil Head

1 * USB Cable

1 * Quick Guide

1 * Glass Dab Tool

Getting Started

1. Pull out the glass water filter.

2. Add a proper amount of water from the bottom. You may gently shake out excessive water.

Getting Started

3. Insert the glass water filter.

4. Press the fire button 5 times to power on/off the device.

Getting Started

5. Twist the base open to the first position(45 degrees).

6. You may pulse the fire button (with door safety off) to warm up the bowl to help you load material more easily with the provided scoop tool.

(We only recommend 0.1g-0.2g of material per session to ensure the best vaping experience).

Getting Started

7. Twist the base back to the closed position.

8. Dabox pro is ready for use.

Coil Replacement

1. Twist and open the base to the second position (90 degrees) to access the coil.

WARNING:

ENSURE THAT THE DEVICE IS OFF AND THE COIL HEAD HAS COOLED BEFORE REPLACEMENT OR ADJUSTMENT! MAY CAUSE BURNS OR SERIOUS INJURY IF HANDLED WHILE HOT!

2. Grip the coil head on the sides and pull it straight out to remove the coil assembly from the base.

Coil Replacement

- Slide the new coil assembly along the tracks back into the base.

3 heaters are available.

Coil Head

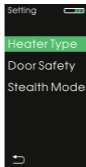

Selecting Heater

1. Press the fire button 3 times to enter the setting interface when the device is on.

2. While "Heater Type" is highlighted, single click the fire button to go into heater selection.

Selecting Heater

3. Use "+" and "-" buttons to select the correct heater.

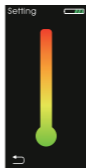

4. Press the fire button to confirm the option on the user interface.

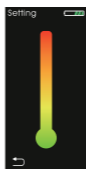

Selecting Temperature

1. Use "+" and "-" buttons to select temperature from five levels after the confirmation of heater.

2. Press fire button to confirm the temperature.

Selecting Temperature

3. Hold the fire button and inhale through the mouth-piece to vape.

Vivant Product Replacement

This warranty provides free replacement of an authentic Vivant product if it malfunctions due to manufacturing defects. This warranty does not cover any damages outside of expected normal use.

Void of Warranty

Any one of the following conditions will void the warranty:

1. Failure to provide original receipt of purchase.
2. Product failure or damage due to improper use or unauthorized repair or alteration.
3. Product failure or damage due to the use of excessive force or user negligence (i.e. dropping the device, submerging the device in liquids, etc.).
4. Product failure or damage caused by using incompatible parts or wires (i.e. using the wrong power cable, etc.).

Voiding the warranty is not limited to the conditions stated above. This warranty only covers authentic Vivant brand products and is valid for two years from the user's date of purchase.
