RemiDemi

**MADE FRESH
FROM SCRATCH.**

The RemiDemi® breaks all the rules of how a bike is supposed to look and ride. We gave it small wheels and fat, grippy tires for major maneuverability. A thick, sturdy frame with a convenient low step through. And an upright seating position atop a wide saddle that puts you in total control. The RemiDemi loves to play, but it can also put in heavy work with a powerful Bosch mid-drive electric motor, Shimano Sora 9-speed and hydraulic disc brakes, and available accessories that give you countless clever ways to carry a child or loads of cargo.

Single Child Seat or Passenger
with additional accessories

**Add RemiDemi Jump
Seat Rear Rack**
fits Benno City and
other pannier bags
(max load 85lbs/40kg)

Easy On
low step thru frame
for easy on and off

**Compatible with all
Benno Front Trays**
(sold separately)

**Racktime Snapit
Accessories
Compatible**

Herrmans Lights
front and rear

RemiDemi

**Benno Dual Kickstand
Compatible**

MAX SPEED	 28mph USA
	 45km/h NZ
BATTERY	400Wh/500Wh
ESTIMATED RANGE SINGLE BATTERY	25-80mi (40-130km)

THE ETILITY BIKE

A typical ebike offers a nice ride, but not much utility. A cargo ebike carries heavy loads, but can be difficult to maneuver. We believe what people really need is an everyday ebike engineered with the perfect blend of ride dynamics, cargo capacity and good looks. Awesome agility with the ability to carry exactly what you need. We call it Etility® Design and it's at the heart of every Benno ebike.

RIDE

A great ride is the most essential ingredient. Because a bike that's more agile, stable and maneuverable is ultimately more enjoyable.

LOOKS

Design that looks good is also about making sure you look and feel great riding a Benno— with and without cargo.

CARGO

Etility design means you can easily carry more cargo when you want to without having to pedal and store more bike than you need to.

THE PERFECT BLEND

REMIDEMI INFO

FITS WIDE RANGE OF RIDERS

LOAD AND PASSENGERS

Max Gross Weight: 400lb/180kg (Rider + Cargo + Bike)

REAR PASSENGER OPTIONS:

MAX 85lb / 40kg

Be aware, when added together, the individual load ratings shown for the rider and cargo plus the actual weight of the bike will exceed max gross weight. Therefore, while you may maximize selected individual load ratings, the sum of all loads cannot exceed the max gross weight (rider + cargo + bike ≤ 400lb/180kg).

Correct passenger accessories must be installed properly in order to carry passengers. (See pages 10-12 "RemiDemi Setups")

IMPORTANT OPERATING INSTRUCTIONS! READ BEFORE RIDING

WARNING! FAILURE TO COMPLY WITH THE MANUFACTURER'S INSTRUCTIONS CAN LEAD TO SERIOUS INJURY OR DEATH.

Read instructions below and the owner's manual before riding. If you don't have a Benno Owner's Manual, go to www.bennobikes.com/support-main/om to view and download the correct manual for your Benno Bike.

- This e-bike is not intended to be operated by children and/or minors.
- Ride within your limits relating to ability, terrain, weather, load and passengers.
- Always wear a certified bicycle helmet when riding.
- Always use front and rear lights when riding, particularly at dusk, dawn, and night.
- Never ride while impaired by alcohol or drugs or in any other compromised state.
- Adding load or passengers increases riding difficulty and e-bike stopping distance.
- Secure load firmly. Ensure that no parts of the load, body or clothing come near moving parts on the e-bike, such as chain, spokes, tires or brakes.
- Do not exceed individual load ratings and max gross weight as indicated on e-bike.
- Hold firmly onto the handlebars while riding with load or passengers.
- Check and maintain brakes to ensure they are in good working order.
- Ensure front and rear quick release axle levers are installed properly and secure.
- Maintain proper tire pressure as indicated on the tire sidewall.
- Use extra caution and reduced speed when riding on wet, icy or loose surfaces. E-Bike may lose traction easier especially during cornering or braking. Use appropriate tires for different conditions/terrain.
- Always obey all rules of the road and all local traffic laws.

When riding with passengers:

- E-Bike must be rated to carry passengers. (See page 9 "Load and Passengers")
- E-Bike must be operated by an adult (18+) with good bicycling riding and handling skills when carrying passengers.
- Ride at a speed appropriate to the condition and your riding ability. Do not exceed 16mph/25kmh when riding with passengers. Higher speed means higher risk of losing control.
- Correct passenger accessories (including wheel guards) must be installed properly by a retail bicycle shop professional bike mechanic. (See pages 10-12 "RemiDemi Setups")
- Passengers must be able to hold themselves securely and safely on the e-bike.
- Children under 40lb/18kg must be secured properly in a compatible and correctly installed child seat.
- Passengers must wear a certified bicycle helmet and fully enclosed shoes.
- Always keep both hands on the handlebars to stabilize the e-bike while riding with passengers.
- Never leave your child/passenger unattended and always keep a firm hand on the e-bike when your child/passenger is on it. Do not rely on kickstand to keep the bike from falling over.

Local and state e-bike laws vary by jurisdiction so know the regulations governing e-bike use where you plan to ride.

MANY BIKES IN ONE

Carry a passenger (85lbs/40kg max) with Passenger Kit and Jump Seat Rear Rack.

Compatible with Yepp® and other popular child seats.

Fits most Racktime® accessories for more versatility.

Delivery box and City Front Basket for commercial use.

Attach your own crate to our Sport Front Tray.

Works great with seatpost mounted surfboard racks.

City Pannier Bags fit onto our Jump Seat Rear Rack.
