# TW-320

## REVO Headset (USB)

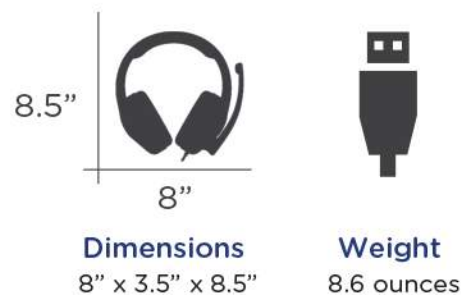

### FEATURES

- 1 Luxurious 24mm thick seamless ear cushions
- 2 Superior sound quality from custom designed 40mm drivers
- 3 Acoustically tuned and ported ear cups
- 4 Innovative and durable structuring
- 5 "Stealth release" technology aids cable and ear cushion replacements
- 6 Boom-lift activated mute microphone

### ABOUT

The TW320 REVO 100% over-ear headset offers listeners premium sonics, genuine vocal quality capture, and unique ear cup swivel technology to perfectly fit each individual listener. State of the art technology is paired with audio excellence to create an affordable, adaptable, and satisfying listening experience. The thick, luxurious ear cushions gently surround and insulate the ear in 360° while a sleek and compact mic boom with a discreet mute function automatically activates when the boom arm is raised. Combined, these unique and thoughtful details provide unbeatable sound quality and minimize background noise. A refined and modern design couples with custom-tuned 40mm drivers and easy-to-remove and -replace modular ear cushions and cables to make the TW320 REVO a revelatory listening experience.
