OUR STORY

From our origin as premier headphones for classrooms, TWT Audio has evolved into an exceptional value product line for all listeners. All products are developed with four design principles that ensure all users have an immersive listening experience. With the integral technological guidance from 2x Emmy award-winning audio engineer Mark Howlett, TWT Audio has developed high-quality, value-driven headphones and headsets that provide superior user experience and withstand the rigors of daily use by students, adults, and professionals of all ages. Since its inception 10 years ago, TWT Audio has grown from a family-run business to one of the top-selling brands in its category, continually innovating to meet the ever-changing needs of the audio landscape.

REVO MODULARITY

EDUCATION'S FIRST MODULAR HEADPHONE AND HEADSET

Stylistically modify and extend the lifespan of your headphone or headset in seconds with the REVO's game-changing *Stealth Release*[™]. Hidden from plain sight (and curious students), seamlessly remove, clean, and replace both ear cushions with applied pressure, or easily swap out the modular cable with a 3.5mm, USB-A, or USB-C cable option to future-proof your district or classroom.

TW-340

The TW340 REVO with *Stealth Release™* is a 100% over-ear wireless headphone that combines state-of-the-art technology with audio excellence to create an affordable, adaptable, and satisfying mobile listening experience. Features include an onboard microphone, superior sonics, and unique ear cup swivel technology to fit each listener perfectly. The 24mm luxurious ear cushions gently surround and insulate the ear to provide unbeatable sound quality and minimize background noise. Enjoy up to 20 hours of playback with a quick charge using a basic USB-C, or plug into your device of choice with a detachable 3.5mm aux cable. Sleekly designed with Bluetooth 5.2 technology, and custom-tuned 40mm drivers makes the TW340 REVO TWT Audio's first modular and most innovative wireless headphones.

REVO HEADSET

TW-310 (3.5MM TRRS)

TW-320 (USB-A)

TW-330 (USB-C)

The REVO with *Stealth Release™* is a premium over-ear headset that offers exceptional sound, precise vocal capture, and adjustable ear cups for a perfect fit. It combines state-of-the-art technology with affordability, adaptability, and satisfaction. The headset features 24mm luxurious ear cushions for comfort and insulation, a sleek mic boom with a discreet boom-lift mute function, and advanced noise reduction for superior audio quality. With its modern design, custom-tuned 40mm drivers, and easily replaceable parts, the REVO provides a revelatory listening experience.

REVO HEADPHONE

TW-300 (3.5MM TRS)

The TW300 REVO with *Stealth Release™* is a 100% over-ear headphone — featuring superior sonics and unique ear cup swivel technology to fit each listener perfectly — combines state-of-the-art technology with audio excellence to create an affordable, adaptable, and satisfying listening experience. The 24mm luxurious ear cushions gently surround and insulate the ear to provide unbeatable sound quality and minimize background noise. A sleek design couples with custom-tuned 40mm drivers and easy-to-remove and replace modular ear cushions and cables to make the TW300 REVO an innovative headphone that will last the test of time.

DURO HEADSET

TW-210 (3.5MM TRRS)

TW-220 (USB-A)

The DURO headset provides a new level of audio quality and unparalleled comfort in a specially designed over-ear model. TWT Audio's "comfort-first" construction and unique ear cup swivel technology minimize external noise infiltration. At the same time, the flip-down omnidirectional microphone boom captures diverse vocal qualities and inflections—out of chewing range. Utilizing sensitive omni capsule technology and 40mm drivers for unmatched sound quality, the DURO is the optimal over-ear headset for everyday usage, wherever you are.

DURO HEADPHONE

TW-200 (3.5MM TRS)

The DURO TW200 over-ear headphone—featuring unique ear cup swivel technology and improved sonic quality—was designed for a gentler listening experience. The soft-contour, gapless cushion design insulates the ear, directing audio toward the ear canal rather than outside the cup, reducing the possibility of distracting neighboring students. A durable design coupled with 40mm drivers delivering exceptional sound clarity, the TW200 headphones are built for long-lasting, everyday use from the classroom, office, or home.

ERGO HEADSET

TW-110 (3.5MM TRRS)

TW-120 (USB-A)

TW-130 (USB-C)

The ERGO headset combines our ergonomic-friendly headphones with microphone capabilities for total connectivity and hours of comfort. Equipped with 30mm drivers delivering extraordinary sound, this design provides the ideal amount of compression and frequency isolation for clear audio without applying unnecessary pressure to delicate ears. A flip-down, omnidirectional microphone boom positioned optimally for voice recording makes the ERGO the ideal on-ear headset for school testing, in the classroom, and beyond.

ERGO HEADPHONE

TW-100 (3.5MM TRS)

TW-102 (USB-A)

TW-103 (USB-C)

The ERGO headphone was designed from the ground up to create better-sounding, more comfortable headphones. Informed by average human head proportions studies, the ERGO features ergonomically angled ear-cups and an optimized audio curve for continuous comfort and exceptional sound in lightweight construction—for students of all shapes and sizes. From in-school testing to distance learning, the ERGO will last through everyday usage—a first-rate headphone to keep everyone connected.

LITE HEADSET

TW-55 (3.5MM TRRS)

TWT Audio's all new TW55 LITE Headset introduces microphone capabilities to address the demands of students in educational settings. The streamlined headset design is light in weight, features a flexible memory-hold headband to fit listeners of all ages comfortably, and is constructed with a durable polymer blend to ensure maximum durability. A flip-down, omnidirectional microphone boom positioned optimally for voice recording helps with testing and learning applications. With a chew-resistant braided fabric cable that prevents damage from the toughest chewers, the TW55 LITE Headset is a great, competitively-priced option for everyday classroom use.

LITE HEADPHONE TW-50 (3.5MM TRS)

TWT Audio's newly improved 2nd Generation TW50 LITE Headphone is explicitly designed to address the demands of students in educational settings. The streamlined headphone design is lighter than its predecessor, features a flexible memory-hold headband to fit listeners of all ages comfortably, and is constructed with polymer to ensure maximum durability. With a chew-resistant braided fabric cable that prevents damage from the toughest chewers, the TW50 LITE Headphone is a reliable and competitively priced option for everyday educational and classroom use.

VICTORY 350XG GAMING HEADSET

TW350XG (3.5MM TRRS & USB-A)

The 350XG Victory Gaming headset with real molten metal is our dedicated gaming headset that provides an elevated level of audio quality and unparalleled comfort to gamers of all ages. TWT Audio's signature ear cup swivel technology and thick, luxurious 100% over-ear memory foam-style cushions gently surround and insulate the ear in 360° for marathon gaming sessions. An adjustable, omnidirectional microphone with boom-lift activated mute captures diverse vocal qualities and inflections without distracting background noise. Large, 45mm drivers tuned exclusively for gaming provide clear, impactful audio to outplay the competition. The 350XG headset complements the intense rush of gaming at home, in competition, and on the road. 3.5MM or USB-A cables are both included, giving you the ability to game on your desired platform.

VICTORY 250XG GAMING HEADSET

TW250XG (3.5MM TRRS)

The 250XG VICTORY Gaming headset provides an elevated level of audio quality and unparalleled comfort to gamers of all ages in a specially designed model. TWT Audio's classic "comfort-first" construction, moisture-wicking ear pads, and unique ear cup swivel technology combine to minimize background noise. At the same time, the adjustable "Silicone Flex" flip-down omnidirectional microphone boom captures diverse vocal qualities and inflections—without the distracting background noise. Utilizing sensitive omni capsule technology and custom-designed 40mm drivers to provide a clear, impactful sonic experience, the 250XG headset uniquely complements the intense rush of gaming at home, in competition, and on the road.

BREAKAWAY ADAPTER

TW-BC1 (3.5MM TRRS) | 10 PACK

The TWT Audio BreakAway TRRS Adapter helps prevent pin breakage in your audio devices. Designed with a bendable "honeycomb" center for added structure and flexibility, the BreakAway Adapter protects devices as a strain relief to mitigate broken headphone and headset jacks and costly device repairs. Sold in packs of 10.

WHAT MAKES TWT AUDIO DIFFERENT?

TWT Audio is, above all, a customer-focused company. Every detail of the user experience is carefully considered and enhanced in each of our designs. We don't confuse customers with exhausting lines of the same types of products. Instead, we design the best version possible to make decisions easy and straightforward. We want each and every customer to be delighted with the purchase of our products. To show this, we offer a warranty coverage program; should an issue arise, we only require a photo of the manufacturing defect. We believe every TWT Audio customer deserves top-quality service and care, and we welcome any feedback that helps us improve our products while cultivating audio innovation for the future.

TWT AUDIO WARRANTY

The TWT Audio REVO, DURO and ERGO product lines carry a 2-year warranty free from manufacturers defects.

The TWT Audio LITE product line carries a 1-year warranty free from manufacturers defects.

To access our complete warranty information, please find this via our website at www.twtaudio.com.

For all warranty claims, please email info@twtaudio.com.
