

DURO SERIES

PN#: TW-200
HEADPHONE

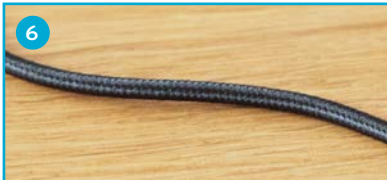

The TW200 utilizes a soft-contour, gapless cushion design that insulates the ear in 360°, directing audio in towards the ear canal rather than outside of the cup, reducing the possibility of distracting neighboring students, family members, or coworkers. A durable polypropylene design coupled with 40mm drivers delivers exceptional sound clarity. The DURO Headphone is built for long-lasting, everyday use in the classroom, office, or home listening enjoyment.

THE TW200 DURO HEADPHONE—FEATURING UNIQUE EAR CUP SWIVEL TECHNOLOGY AND IMPROVED SONIC QUALITY—WAS DESIGNED FOR A GENTLER OVER-EAR LISTENING EXPERIENCE.

FEATURES

- 1. Headband:** "Comfort-First" compression
- 2. Ear Cushions:** Ergonomically shaped
- 3. Audio Curve:** Optimized
- 4. Construction:** Durable polymer materials
