This increase continues until the sixth week and then from the seventh week, you reduce your dosage by 12.5 mcg up until the tenth and final week of your T3 Cytomel cycle. It is important to reduce your dosage of T3 Cytomel in the final week in order to allow your thyroid gland to start producing endogenous Triiodothyronine hormone on its own. Sale! \$39.00 \$29.00 Liothyronine Sodium T3 is a synthetic hormone that has been used to increase the activity of the thyroid gland. It is used on the side as a supplement, with more popularity resting on its T-3 promotion alongside anabolic steroid use. Bodybuilders have been using it to increase the metabolism in their cells.

Tiromel-T3-Abdilbrahim-25mcg-100tabs \$ 26 T3 Cytomel is a thyroid hormone that is synthetically manufactured. It plays an active role of stimulating the basal metabolic rate, which, in turn enhances metabolism while at the same time quickening the burning of body fat. It's perfect for the cutting cycles phase.
