

Mattresses

 Engineered for Motion

Pocket Spring

The ComfiMotion Pocket Spring mattress offers zoned support springs that respond and contour to the individual body shape to improve comfort, maximising support and sleep quality.

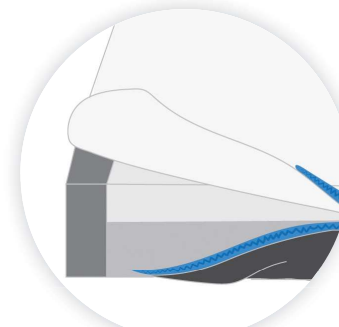

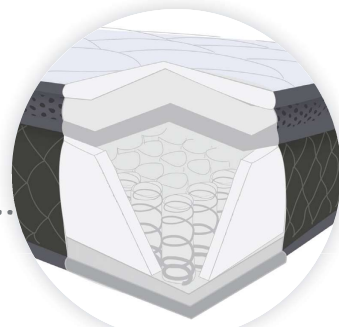

Transitional Layered Pocket Springs arranged in weight activated support zones.

Integrated Side-Walls create roll resistance at the bed edge and provide extra rigidity to ease bed entry and exit.

Luxuriously Soft Pillowtop Layer provides a plush immersive feeling complemented by the responsive pocket springs.

▲ Classic Pocket Spring Mattress

▲ Classic Memory Foam Mattress

Our ComfiMotion Pocket Spring and Memory Foam mattresses are designed with the flexibility to follow the contouring profile of an adjustable bed.

Memory Foam

The ComfiMotion Memory Foam mattress contours to the user's body, providing personalised comfort and transitional pressure relief. Integrated side-walls increase roll resistance at the bed edge and assist users, partners or carers with extra rigidity to ease bed entry and exit.

Contoured Immersion: Specially layered memory foam provides contoured immersion for support and pressure relief.

Superior Breathability: Up to 8x more breathable than conventional memory foams.

Anti-microbial: Environmentally safe treatment is added to the foam which reduces odours and kills 99.9% of bacteria.

Eco-friendly GECA Foam is produced using cleaner chemicals and production technology.
