

Non-slip Bedside Safety Crash Mat

Place on either side of bed to prevent injury for patients at risk of rolling out of bed

Low friction nylon cover - easy to slide

Textured under surface - non-slip when pressure applied

Hinged sections - easy folding for storage

Reflective piping - increased visibility at night

Bed Rail Protector

Soft medical grade foam (25mm thick)

Protect from injury through limbs striking or getting caught in metal bed rails

Soft two way stretch PU cover - can be wiped down with detergent or Hypochlorite solution

Easy secure Velcro closure

Use on static or collapsible bed rails

Sold as a pair - available in two sizes
