ABOUT NEXUS ...

Nexus is known internationally for producing functional, quality adult toys made from luxurious materials which guarantee optimum results time and time again. Founded in 2005 upon the realisation that the sex toy market lacked quality, design-led products for men, Nexus was the first luxury adult brand to recognise and fulfil this demand.

The heart of Nexus is based in London along the banks of the River Thames, in the shadow of the iconic Tower Bridge. Working alongside a dedicated team of designers and engineers, the Nexus team is a diverse group of professionals who each bring a wealth of experience, creativity and forward thinking to the mix.
