THE RHINO METALS STORY

★★★ HANDCRAFTED ★ BUILT TO LAST ★★★

COMMITMENT TO EXCELLENCE...DISCIPLINE

For American fighter pilots, these are more than just words; they are the code to live by. It's this culture of excellence that makes our fighter pilots the best in the world at protecting us against evil. And in this world we live in, there is no end to the evil that seeks to threaten our lives, liberty and property. One seasoned fighter pilot took this ethos of excellence, instilled through years of flying fighters, and applied it to the business world, to develop superior security products for Americans.

Part art, part furniture, and all security, Rhino Metals safes are built to protect you and your family from the uncertainties and evils of this world, and offer more convenience than any other brand.

Rhino Metals products stand as proof of total commitment to excellence in one's craft. They are art, revealed in American craftsmanship. . . the same kind of craftsmanship that built this country.

Rhino Metals stands apart from the competition, with safes and other products that are a cut above in both form and function. And like the fighter pilots protecting this great country, we are here for you, securing America, one safe at a time.

Rhino Metals. . . everything else is just storage.

180° Door Opening

MORE SECURITY

Long travel, large diameter locking bolts provide up to 40% more locking engagement than typical gun safes. Anti-pry guides in the doors of our full size gun safes further increase pry protection. Thicker bodies, doors and fire lining provide superior security and fire protection. In some cases, up to 50% thicker than typical gun safes.

MORE FIRE PROTECTION

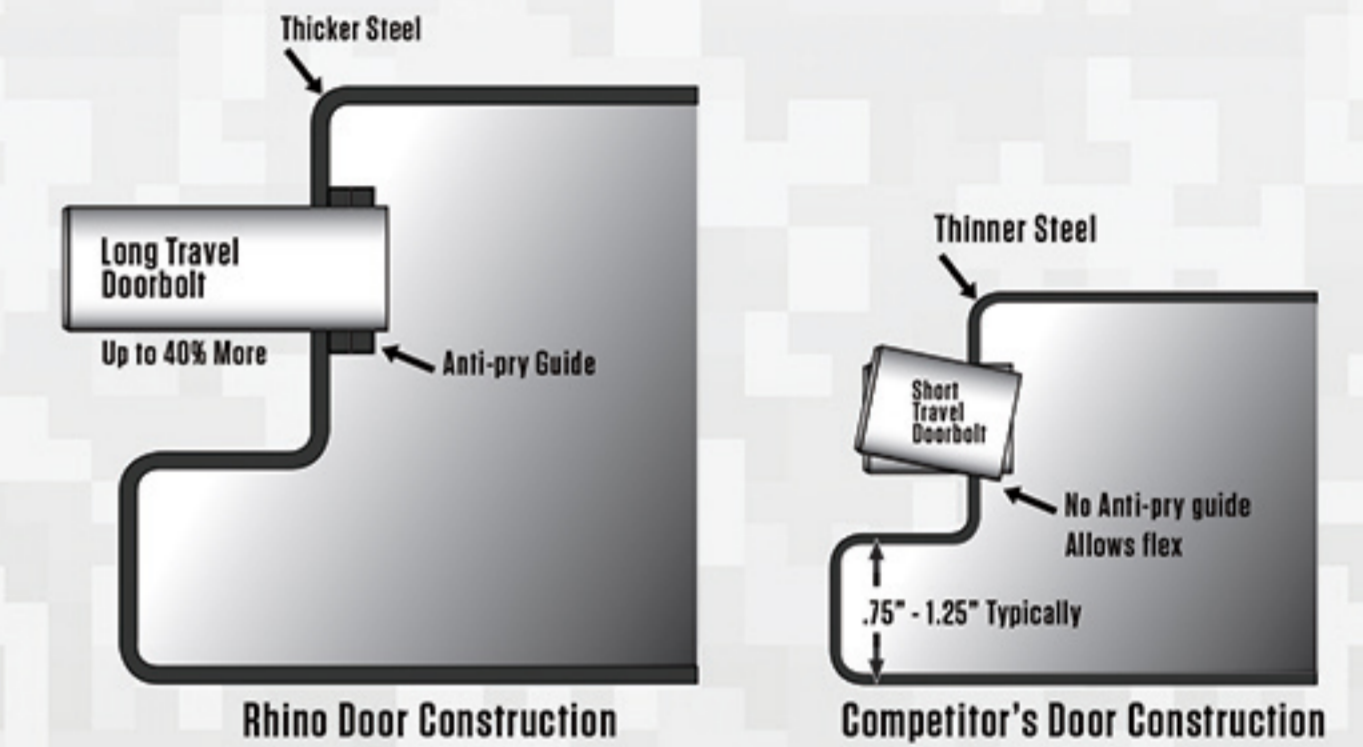

Internal hinge designs used by other brands are typically welded to the inside of the safe wall and do not provide full coverage fire protection. Rhino's external hinge design provides complete coverage and improved fire protection.

MORE CONVENIENCE

With the swing out gun rack, you'll be able to store more and get to your guns faster and with less damage. No more digging through your guns to get to the one you want.

MORE ACCESS

External hinges give you a full 180 degrees of door opening and complete fire lining around the door frame.

UNEQUALED STORAGE & FAST ACCESS

★ GET FASTER ACCESS TO MORE WEAPONS WITH RHINO'S PATENTED SWING OUT GUN RACK SYSTEM ★

Rhino's exclusive **patented** Swing Out Gun Rack System (U.S. patent number 9,140,049) is available in two sizes and is available on most models. With it, you will store more guns and more scoped/tactical guns, and have fastest access to all of them. Store guns on the rack in any orientation you need to better fit together (muzzle up or muzzle down, trigger in or trigger out.) Almost every slot on the rack can be filled with a scoped long gun. Simply swing the rack out to have instant access to any weapon along the back or side wall.

Long gun capacity, scoped gun capacity, and easy access to your guns are usually trade-offs. If you want a lot of one, you typically have to sacrifice the other two. With Rhino's exclusive patented Swing Out Gun Rack and Rifle Rods Storage System, this problem is eliminated and you can have it all.

- Store more scoped guns
- No more digging through your rifles to get to the one you want
- Full access to your door organizer, unlike door mounted gun racks
- 2-3 times more fast access guns than conventional safes
- 2-3 times more fast access guns than safes with door mounted gun racks
- Store up to 4 times more scoped and tactical long guns

Floor Storage Area Under Rack Unlike Other Rack Systems

Long Guns Can Be Stored Barrel Up or Down to Fit More Scoped Weapons

Flexible Cushioned Butt and Barrel Rests Help Protect From Damage

The most space-efficient way to store your firearms

Storing and accessing your firearms has never been this easy and convenient.
