SAFES & SECURITY SOLUTIONS

SAFE TERMINOLOGY

Here is some of the most common terminology for safes and security systems. In addition to terminology for standard safes, we have also included terminology specific to our biometric fingerprint scanner technology. This information will help you understand each safe's features and specifications. Barska uses standard safe terminology in specifications to make choosing a safe a quicker and simple process.

BIOMETRIC SCANNING IMAGE SENSOR
The Biometric safe fingerprint image sensor uses an optical sensor to create a bio algorithm (encrypted mathematical key) of your fingerprint and stores this to memory to access the safe. The Biometric sensor uses advanced industry leading algorithm-mapping technology to read your fingerprint to unlock the safe.

BIOMETRIC USER MEMORY
Biometric safes store fingerprints recognition to internal memory storage. Note that these are mathematical keys and not the actual image of a fingerprint. All Barska biometric safes allow multiple users to be saved in memory. It is also recommended to scan and store multiple fingers in to the safes memory in case of extreme injury to a finger.

USER FINGERPRINT REGISTRATION
A new Barska Safe is in demo mode, which allows any fingerprint to open the safe. You will need to register a user fingerprint to lock the safe. Simply press and release the registration button on the inside of the safe, then place your finger on the scanner so that the optical sensor can scan your fingerprint. You will hear a confirmation beep when successful.

CALIFORNIA DEPARTMENT OF JUSTICE APPROVED
Select safe models have been tested and approved by the California DOJ as a firearm secure storage device. The California DOJ testing procedure is the strictest in the country and qualifies for all 50 state guidelines.

DEADBOLT SYSTEM
Select safe models feature motorized dead bolts. These are the thick steel bolts seen protruding from a safe's door. When the safe is locked the bolts slide into position behind the door jamb, anchoring the door firmly shut. Motorized deadbolts secure the locking system preventing any tampering that may cause locking solenoids to fail. Non-motorized deadbolt safes use less power and feature a longer battery life.
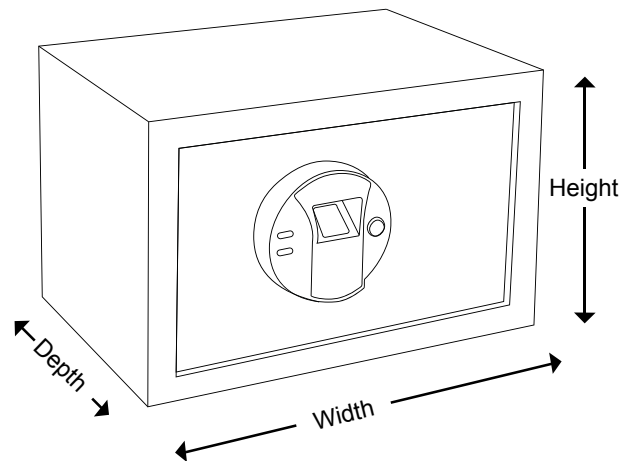

MOUNTING
Select safe models feature pre-drilled mounting points on the bottom and at the back of the safe. The included lag-bolts allow you to securely attach your safe to a fixed structure. For added security, it is recommended that safes be secured to a solid structure to prevent the safe from being knocked over or from being carried away.

BATTERY LIFE
Select safes are powered by standard AA batteries and can last up to 2 years with normal use. Non-motorized deadbolt safes use less power and feature a longer battery life. If the batteries have lost their charge the safe can still be opened via the mechanical back-up key or by using a temporary power bypass that connects externally to the safe.

SECONDARY BACK-UP KEY ACCESS
Select safes feature a secondary back-up mechanical key access. The access point is normally hidden. All Barska Safes come with a set of back-up keys.

OUTER DIMENSIONS
Depth - Describes the depth of the safe, from front to back, as measured on the outside.

Width - Describes width of the front of the safe, from outside edge to outside edge.

Height - Describes the height of the safe, from top to bottom, as measured on the outside.

SAFE ONE YEAR LIMITED WARRANTY
(Within USA and Canada only)
This warranty does not cover consumer-caused damages, abuse, normal wear-and-tear, unauthorized repairs or modifications. For further detailed information, please refer to the warranty policy enclosed with products. Select models.

BARSKA SAFES
Barska biometric safes are the ultimate in quick access security solutions for the home and office. Secure and access your valuables in seconds with the simple scan of a fingerprint. With Barska biometric safe you will no longer have to waste time looking for your keys or entering a combination, to access your safe all you need is your fingerprint. Barska biometric fingerprint scanners are the highest resolution and most advanced in the safe industry. In addition biometric safes, Barska also offers a wide range of safes with a variety of access mechanisms, sizes, and features. Barska also manufactures a wide selection of basic secure lock boxes such as cash boxes, multi key storage safes, compact combination safes, diversion safes and digital keypad safes.

Parcel Mail Box

These parcel mail boxes are the perfect solution to ensure documents and packages are safely kept till retrieved by an authorized user with key access. The drop slot makes dropping items into the lock box safe and simple for almost any home or business. The key lock keeps the contents of the lock box secure for privacy purposes and are safely kept till retrieved by an authorized user with key access. The larger models the feature push button lock for bulkier items. The bottom locker can be used and locked till an authorized user with key access can retrieve it. Made from strong stainless steel.

Features
- Convenient Drop Slot
- Pre Drilled Mounting Holes
- Locking Front Retrieval Door
- Includes Back-Up Keys

MPB-600 Parcel Mail Box, Black, w/One Big Parcel, Drop Door
CB13332

MPB-500 Parcel Mail Box, Black w/Drop Door
CB13324

Parcel Collection Locking Drop Box
CB13256

Parcel Mail Boxes

Model #	Description	Outer Dimensions DxWxH inches	Inner Dimensions DxWxH inches	Locking System	Weight lbs	Includes
CB13332	MPB-600 Parcel Mail Box, Black, w/One Big Parcel, Drop Door Stainless Steel	10.42 x 16.14 x 51.97	n/a	Key Lock	44	Mounting hardware and keys
CB13324	MPB-500 Parcel Mail Box, Black, w/Drop Door Stainless Steel	12.20 x 18.90 x 44.10	n/a	Key Lock	39.5	Mounting hardware and keys
CB13256	Parcel Collection Locking Drop Box	10.5 x 15.4 x 41.5	n/a	Key Lock	34	Mounting hardware and keys

MPCB-100 Multi-Chambered Mail and Parcel Box With Adjustable Space
CB13610

Push Button Lock

The push button lock for the parcel doors gives easy access for the delivery driver and will keep the contents of the parcel box secure until retrieved by an authorized user with key access.

Features
- One Drop Slot
- Two Parcel Doors With Retractable Shelf
- Pre Drilled Mounting Holes
- Locking Front Retrieval Door
- Single Key Cylinder Lock
- Solid Steel 0.8 mm Construction
- Includes 6 Keys And Mounting Hardware
