

B-Rate Safes with Rotary Hopper

Proven Solution, Outstanding Service

- B-Rated construction
- Auto door detent
- Spring-loaded re-locker
- Time delay feature available as robbery and theft deterrent
- Lock options available on request
- 24/7/365 live technical support when needed

RH2012 Safes Provide Excellent Asset Protection

The B-Rate safe combined with this quick rotary hopper will give you easy ability to make larger drops. The rotary hopper's unique "tube in tube" design makes "fishing" difficult. Deposits are made through the top, turning the hopper handle once drops them behind your locked safe door. Limiting access to these drops is a proven deterrent in cash losses. Equipped with a digital keypad lock.
