

LOCK'ER[®] DOWN

Security Products

Instructions for Model 2017 Console Safe

1. If you have a combination lock, it is easier to set the combination before installing the safe.
2. Open console and empty contents and remove the 4 bolts in the bottom of console.
3. Place lid section in console
4. Hold lid section up against top of opening and add the front vertical bracket and loosely attach the nuts to studs, but do not tighten.
5. Do the same with the rear bracket.
6. Line up the front and rear brackets and replace the 4 bolts you just removed.
7. Now you can tighten all fasteners.

Enjoy your purchase.
