Instructions for Model 2026X Console Safe

1. If you have a combination lock, it is easier to set the combination before installing the safe.
2. Open console and empty contents.
3. Place lid section in console. Fig 1
4. Hold lid section up against top of opening and add side pieces loosely using supplied nuts. Fig 2
5. Add end pieces and loosely attach nuts. Fig 3 NOTE: The short 3″ piece goes in front, and can be attached to the console with double sided tape, but this is not necessary.
6. Place X bracket in bottom of console lining up the four studs from side pieces. Fig. 4
