Remington®

NITRO

Nitro, known for long-range and consistency, carries over to this line of premier safes providing long life and excellent performance. Engineered to protect against fire, water, and smoke damage for ultimate protection for your firearms and valuables. The SecuRam™ UL Rated electronic lock and steel bolts create a robust barrier against unauthorized access. The premium interior is outfitted with door organization, quilted walls, carpeted shelving, bright lighting, and a dual power outlet with USB ports. Built to last and sized for your needs, the Nitro is an excellent option for those looking for robust security, high performance, and elegant design.
