

M SERIES

The M Series is our mid-grade line of fire rated safes. They are a step up in quality and are more secure than our TS Series safes. The M Series has 11 gauge steel in the body and the door which is thicker than the 12 gauge in our TS Series. We also put two layers of fireboard in the M Series safes so that they are insulated for 60 minutes at 1200° F. The M Series have more locking bolts which are also thicker in diameter, internal door adjuster, 3-spoke handle, internal electrical/USB outlets, and a full door organizer.

DOOR SECURITY

- 5" Thick composite steel door with 11 gauge steel (3mm)
- 1.25" Diameter steel locking bolts
- External spring loaded relocker
- Drill resistant hard plate to protect the lock against drill attacks
- Attack resistant external hinges that allow the door to open 200 degrees

BODY SECURITY

- Heavy 11 gauge steel (3mm)
- Fully welded body
- 4 Pre-drilled holes on bottom of safe for anchoring to floor

FIRE PROTECTION

- Rated at 60 minutes at 1,200 degrees Fahrenheit
- Heat activated door seal (expands 5 times it's thickness)
- Two layers of fireboard insulation in the body walls, floor, and ceiling
- Three layers of fireboard insulation in the door
- External door hinges allow for full fireboard protection

INTERIOR

- Power outlet with USB (3 regular outlets and 2 USB ports)
- Door adjusters - for adjusting how tight the door is to the door frame
- 8-45 Long gun capacity depending on model
- Full internal door organizer
- Gray carpeted interior
- Adjustable shelving heights and placements
- One large upper shelf included (M45 has 2 large shelves)
- 3-6 small shelves included depending on model

M32 - Contents not Included

LIMITED LIFETIME WARRANTY
Against Fire and Attempted Break-In
