LOCK'ER DOWN®

Security Products

INSTALLATION INSTRUCTIONS

LD2048/LD2048EX

[2010-2022 Toyota 4Runner]

1. For any combination style lock, it is a good idea to set the combination before installing the safe. We recommend that the combination be set with the **DOOR OPEN** in order to test the lock combination effectively without locking yourself out.
2. Clear out the contents of the center console for now, including the factory mat at the bottom of the console.
3. Remove the neoprene padding from the inside of the safe for now.
4. Remove the **2 Bolts** at the bottom of the console compartment.
5. Set the safe into the center console.
   a. The slots at the bottom of the safe should line up with the slots where the bolts were removed from **Step 4**.
6. Secure the safe to the console compartment using the **2 10mm BOLTS** provided by **LOCK'ER DOWN**.
7. Tighten the bolt, **DO NOT OVER TIGHTEN, THIS COULD DAMAGE THE CONSOLE**.
8. Re-insert the padding that was removed from the safe before installation.
9. Enjoy your purchase!

Tools Needed:

- **IMPACT DRILL** or **SOCKET WRENCH**
- 10mm Socket bit

Contents Included: 4 10mm Bolts.
