*More than
a shoelace
for your
shoes.*

¿Why is this a
unique shoelace?

sliwils

Concept

Sliwils was born to fulfill a function that goes beyond tying your shoes.

With the laces, Sliwils wants to give color and personality to your style, make you stand out from the rest and above all, have fun creating looks that break with what is aesthetically correct.

sliwils

Technology

Sliwils are created on the bias, a type of cut that gives them much more resistance and elasticity than expected in normal laces.

In addition, the designs are achieved without stamping or dyeing the cord, but by twisting the fibers themselves.

The result is tubular shoelaces with metal heads, capable of withstanding your daily rhythm and offering you almost infinite possibilities.

Byetsa, innovating every day since 1969.

Byetsa, an industry founded in 1969 and specialized in the manufacture of bias binding tapes in all its variants and modalities, is responsible for the birth of Sliwils.

Byetsa is a dynamic company, which has adapted to the different market trends, through progressive mechanization and automation of its production processes. Thanks to its evolutionary capacity and a complete computerization of its different sections, Byetsa has achieved an optimum production capacity that has allowed it to offer an agile and professional service to all its customers.

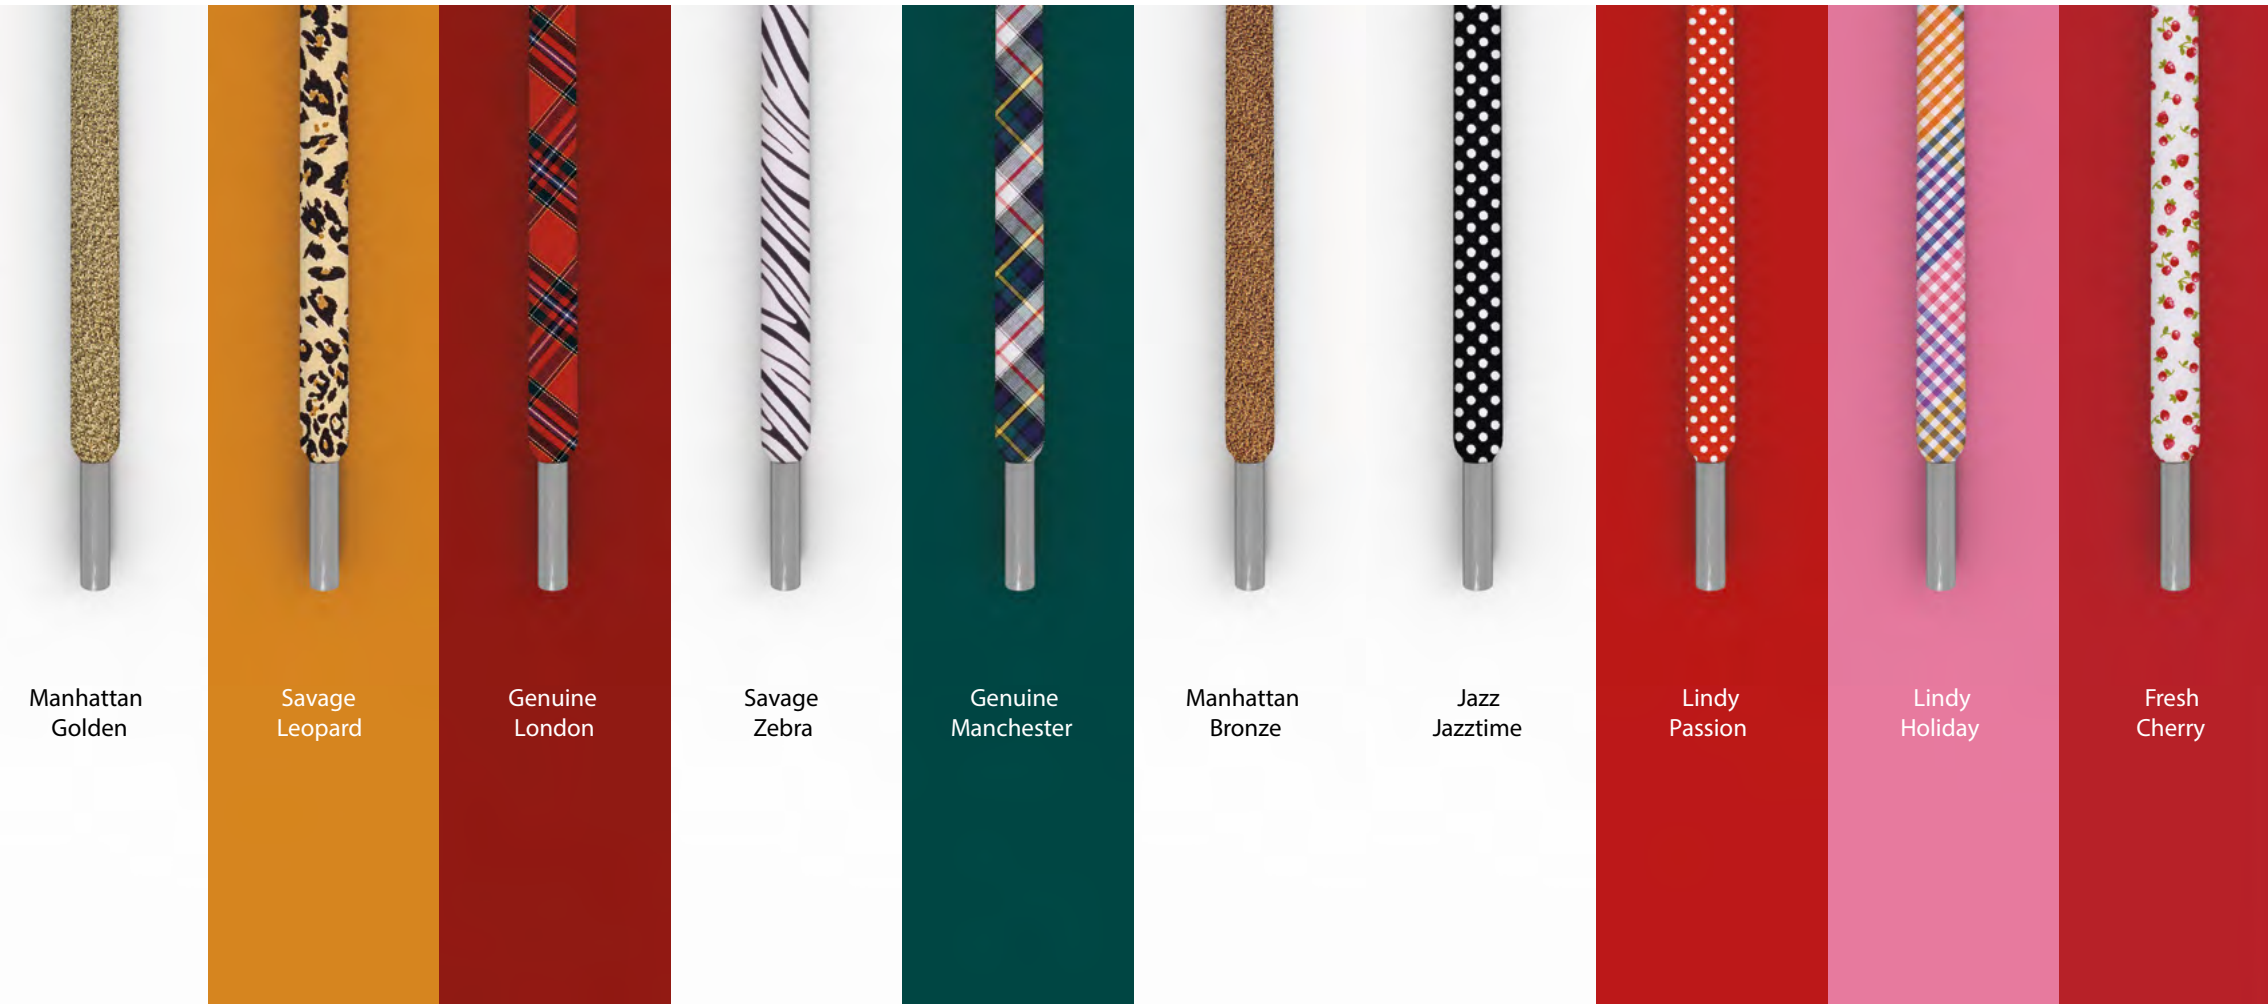

As a leading company in the world of bias, Byetsa is constantly developing new products and applications in order to meet the needs of its customers, as well as the demands generated by the market.

In 2020 Byetsa, with all its solidity and experience, launches "sliwils" and its laces for sneakers, a new product resulting from the company's constant desire for research and development, to offer the market fresh air and creativity in a sector in which it will undoubtedly be a real revolution.

Collections

Sliwils collections are inspired by different realities that reflect your inner world.

The glam of the Manhattan collection, the British character of the Genuine, the radiance of the Neon, the explosion of color from the Holi festival...

Find the reality that defines you best and bring it out.
