C-C cable
Max charging power can reach up to 100W

Seamless Charging for Three Devices at Once

Supports 3 output ports, charge at the same time, no need to wait

Supports Samsung's 45W Super Fast Charging

Compatible with Samsung 45W fast charging, just a meal time, your phone will be fully charged.

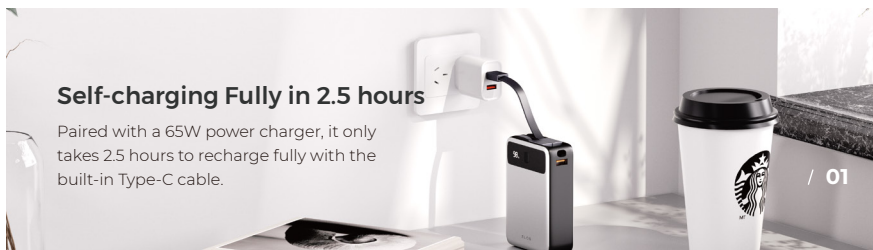

Travel Safety

Compliant with aviation carry-on standards, making your journey worry-free and delightful. Whether you're on a plane, high-speed train, or subway, ZLOS CompactPower is your ideal travel companion.

Self-charging Fully in 2.5 hours

Paired with a 65W power charger, it only takes 2.5 hours to recharge fully with the built-in Type-C cable.

35W Super Fast Charge

With ZLOS 35W power bank, experience lightning-fast charging. Embrace the joy of high-speed charging, free from waiting. Each Type-C single port supports 35W fast charging.

Travel Safety

Strong Power of C-C Cable

The built-in C-C cable adopts E-MARKER chip, which has strong power and high power transmission. The maximum charging power can reach up to 100W. The maximum charging power of the C-L cable can reach up to 27W.

TINY 10C

10000mAh Mini Power Bank

Travel Safety

Super Mini

Two built-in cables

Two built-in cables (USB-C and Lightning) can charge various kinds of devices, eliminating the need for a separate charging cable.

In/Out Ports

TYPE-C port for both in/out, USB port only for out.

Rugged and Compact

This palm-sized mini power bank fits directly into your shirt pocket and can be carried around. With its high-quality batteries, this power bank can provide long-lasting, heavy power.

Top Battery Top Quality

TINY 10C features the latest technology and uses the same type of batteries found in leading electric vehicle companies, delivering over 500 lossless recharging cycles - well above industry standards.

- Strong magnets

TB05

15W Wireless Power Bank

		5000mAh
MagnetLink	20W PD	Capacity

* Stand Included *

Ultra-Thin Design, Portability Unmatched

With a thickness of only 9.5mm and dimensions of 96X65.8X9.5mm, the ZLOS TB05 is ingeniously lightweight and compact, easily fitting into a pocket or bag, carrying power with you effortlessly wherever you go.

Intelligent Temperature Control

Using an advanced temperature control chip, it can maintain a low temperature even after long-term use. The aluminum alloy shell can accelerate heat dissipation, so it can stay cool while playing and charging.

Travel Safety

Snap & Charge Precise Positioning

Contains 16 pieces N52 super strong iron boron magnets, which are accurately aligned to ensure that the power bank is stable and firm.

TT10

10000mAh Ultra-Thin Mini Wireless Power Bank

Ultra-Thin Body, Redefined Portability

The ZLOS TT10 redefines the portability of mobile power sources with its ultra-thin body measuring 102x68.5x12.8mm. The large capacity of 10000mAh is ingeniously integrated into a mere 12.8mm thickness, ensuring a perfect balance between lightweight convenience and robust power, making travel effortlessly easy.

10000mAh
Capacity

Charging Multiple Devices, Sharing Energy

The ZLOS TT10 can meet the charging needs of multiple devices simultaneously, whether smartphones, tablets, or smart wearables, it easily handles all. This flagship power bank makes energy sharing simple, ensuring you and your companions never run out of power.

Intelligent Temperature Control, Lasting Like New

After rigorous testing and software optimization, the ZLOS TT10 is equipped with market-leading intelligent temperature control technology. It remains cool even after extended charging periods, almost eliminating heat compared to other products, ensuring safe and comfortable use.

Magnetic Charging, Instant Power

Utilizing advanced magnetic charging technology, the ZLOS TT10 offers you a world of wireless charging freedom. Simply place your device on the power bank for quick charging, whether you need a rapid power boost during work or a quiet charge at night, you can enjoy a worry-free charging experience.

06.

TB10

15W Slim Magnetic Wireless Power Bank

Ultra Slim

Travel Safety

Ultra Slim & Compact, Effortlessly Portable

With its ultra-slim form factor, the ZLO-TB10K-20E is only half the size of a mobile phone and just 15.8MM thick, making it easy to slip into a bag or pocket. Its lightweight design, weighing just 220g, and compact dimensions of 142x67.5x15.5mm, mean you can carry it one-handed, ready for charging on the go.

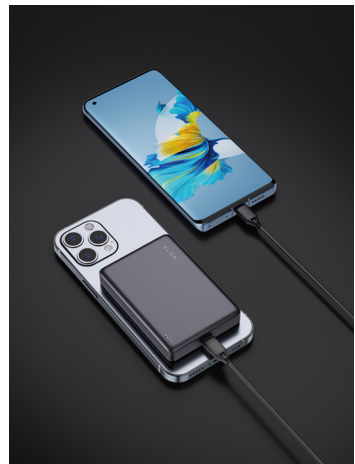

Snap and Charge with Magnetic Ease

The magnetic design of the ZLO-TB10K-20E Power Bank revolutionizes the charging experience, offering convenience and freedom like never before. Strong magnetic attachment allows for charging anytime, anywhere, ensuring a hassle-free charging time.

Dual Device Charging Simultaneously

Designed to meet the charging needs of two devices at once, the ZLO-TB10K-20E caters to both Apple and Android users. Now, fast charging is easily accessible for everyone, letting you power up multiple devices without a hitch.

Charging Through Cases Made Easy

Charge effortlessly even with your MagSafe magnetic case on. Its strong magnetic adsorption remains stable and firm, providing worry-free charging.

Intelligent Temperature Control for Safety

Featuring an advanced temperature control chip, it remains cool even after long-term use. The aluminum alloy shell enhances heat dissipation, ensuring it stays cool during intensive play and charge sessions.

EKOSOLAR-C

160W Foldable Solar Panel

Foldable

22% generation efficiency

Monocrystalline silicon

Waterproof

PD Box

MC4

Universal photovoltaic MC4 interface that can match MC4 to various connector wires - making it convenient and compatible.

Easy to Store and Carry

The EKOSOLAR-C features a foldable stand that can be adjusted to an angle of up to 90 degrees. It can be fully charged in just seconds and easily stored in its compact carrying bag. With its quick and easy setup, you can seamlessly adjust the angle to maximize light absorption and achieve a higher conversion rate.

Monocrystalline silicon solar panel power generate efficiency

General solar panel power generate efficiency

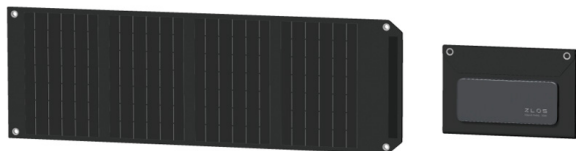

Up to 22% Power Generation Efficiency

Only use new Class A monocrystalline silicon

18

SP03

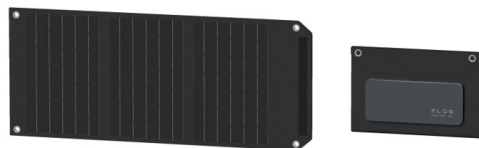

30W Solar Panel with Hub

19

SP02

21W Solar Panel with Hub

SAN01

Sun Angle Navigator

The ZLOS Sun Angle Navigator is the world's first Sun Angle Navigator with composite functions. In addition to providing angle measurements for solar panels, it also has a miniature compass to help you find directions in the field.

To obtain solar energy more effectively, it is necessary to allow sunlight to shine as vertically as possible onto the solar charging panel.

When sunlight is perpendicular to the surface of a solar panel at a 90-degree angle, the maximum power output of the solar panel can be achieved.

Instruction for Use

1. Clip the product to the edge of the solar panel, and under sunlight, the transparent cover will form a circular projection on the bottom.
2. Adjust the angle of the solar panel, and when the circular projection is closer to the center position, it indicates that the angle of sunlight is closer to 90 degrees, and the efficiency of solar panel power generation is higher.

2

CABLES

Supports Fast Charge

Supports Fast Charging from higher powered adaptors to help you get your devices ready to go when you need them.

Fast Charge

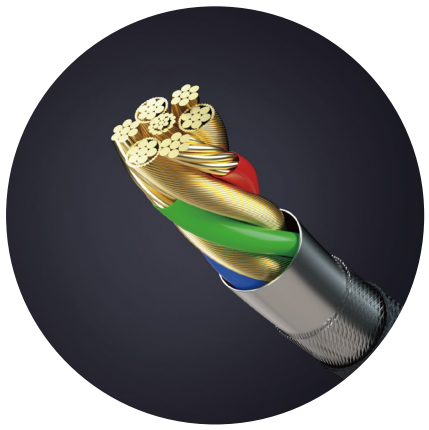

Wide Compatibility

Durable

MFi certification(A-L/C-L)

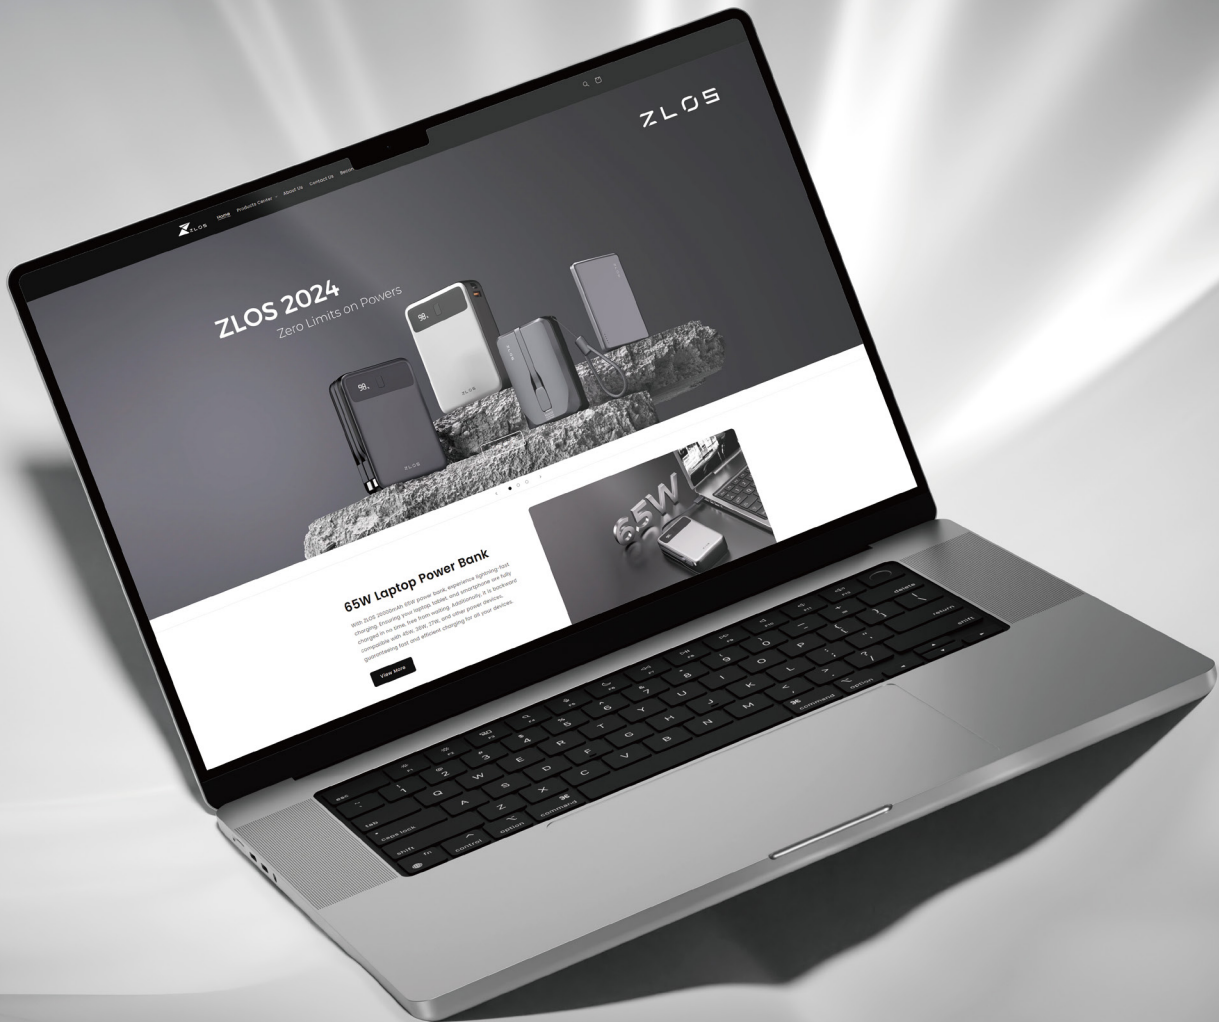

A-L/C-L cable has passed the rigorous MFi Apple certification standards testing process and can be used safely and reliably with your Apple lightning devices.

Leather belt & metal button

A beautifully crafted genuine leather belt helps keep your premium cable tidy and kink free, while the easy to use metal button holds it all in place.
