# Company Profile

ZLOS specializes in portable and high-quality electronic devices combining advanced technology and chic designs, dedicated to making values, solving problems and providing customers with the best service possible. As a manufacturer of lightweight, unique and practical products, we are developing portable power stations, computer power banks, ultra-durable mobile phone charging cables, wireless charging docks and other products to make life easier and more convenient indoors and outdoors.

With outstanding commercial capabilities and long-term business goals, ZLOS has established stable relationships with trading partners from many countries. As part of our strategy to stay competitive on the market, we hold annual meetings with global agents to jointly decide on upcoming products.

Besides valuing engineers who bring innovation, ZLOS respects every employee based on his or her individual values. In order to take corporate responsibility and safeguard the rights of all employees, we plan to share revenue from the company's annual earnings with each member.

- **Mission and Vision**

Committed to creating an unlimited charging experience, empowering every user with innovative technology.

- **International Joint Venture Background**

Founded by partners from Mainland China, Hong Kong, and Australia, showcasing the unique advantages of multicultural cooperation.

- **Brand Origin**

Essentially an Australian brand, emphasizing its international development path while maintaining core values.

# Product & Service

01

## Main Products

Introduction to high-performance power banks and charging solutions, along with the application of AI technology in product development and production.

02

## International Certification

Emphasizing trademark registration in key markets such as Europe, Asia-Pacific, and Australia, proving the brand's international recognition.

03

## Cost Efficiency

Highlighting the use of AI to reduce operational costs, providing competitively priced products.

01

## Technological Leadership

Showcasing how ZLOS uses advanced AI technology and innovative design to lead in performance, portability, and user experience.

02

## High Cost-Effectiveness

Emphasizing operational and production process optimization through AI technology, maximizing cost efficiency to offer competitively strong pricing.

03

## Sustainable Development

Introducing how the products consider environmental factors in design and manufacturing, including the use of recyclable materials and energy efficiency, showcasing corporate social responsibility.

04

## Global Standards Compatibility

Highlighting the international design of products, compatible with different regional power standards and interfaces, catering to global user needs.

05

## Customization for Customers

Describing how ZLOS offers customized services to meet the unique needs of specific customer groups or corporate clients, increasing market appeal.

# Product Advantages

# Market and Customer S

## Global Expansion

Detailing the journey from starting in Australia to expanding into key markets including the Philippines, Mainland China, Hong Kong, Australia, New Zealand, Vietnam, and Malaysia, showcasing ZLOS's international appeal and adaptability.

## Customer Segmentation

Identifying key customer segments that benefit from ZLOS products, such as tech enthusiasts seeking high-quality, innovative charging solutions, business professionals needing reliable power on-the-go, and environmentally conscious consumers.
