# About Marija

Marija's art is inspired by nature and autobiographical life events. Many of her paintings feature forms that are reminiscent of oceans or mountain landscapes. Marija works intuitively, letting her paints, inks or drawing materials guide the process, until an image dances across the paper or canvas. Her artworks represent an exploration of colour and form within the traditions of Abstract Expressionism.

Marija is available for commissions and collaborations. She works with trade, corporate and individual clients to create exquisite artworks for the workplace, home or commercial settings.

# Fine Art Metal Prints with Framing

*SKU: METFRA*

## HOW DOES IT WORK?

**Chromaluxe aluminium panels** are both made with **recycled material** and **100% recyclable**. High definition prints are the result of our 7 ink printing process (where others only use 4 inks), latest equipment and 11 years of knowledge gained from specialising in sublimation printing on metal.

We start by printing your file onto transfer paper. This is then positioned onto a specially coated Chromaluxe aluminium sheet and placed into a heat press, infusing the archival inks into the durable and scratch resistant surface.

Prints can be used outdoors with a speciality coating.

### Sizing

We print up to 48 x 96" (inches) or 1219 x 2438mm

### Turnaround

Allow 2-5 working days for printing depending on size of job, and an extra 2-5 days for shipping.
