

Quick Start Guide

WINDSHEAR 3200 SAFETY DRYER/98786

1. Assembly

Install the Handle and Wheel Kit.

Fully insert the four well nuts into the four handle mounting holes located in the backside of blower housing.

Align the handle mounting holes with the four installed well nuts and secure with four screws.
ATTENTION: DO NOT over-tighten screws or push too hard against well nuts, damage may occur.

3

Hand tighten one nut at end of axle then slide one wheel onto axle. Push axle through hole in blower housing then attach other wheel and nut. Using two wrenches, tighten the two nuts until fully threaded.

4

Fully extend the handle until it locks in position and slide the safety sleeve down the handle.

2. Operating Instructions

1. Place the unit in the desired position. (A, B, or C).

2. Plug the cord into an appropriate outlet.

3. Select the desired speed. (I, II, III).

3. Additional Parts Required

There are no additional parts required for the unit.
