

GROUTO[®]

GROUT RESTORER + STAIN REMOVER

DESCRIPTION

A powerful, non-fuming acid grout restorer that makes ceramic tile and grout look like new. Removes hard-water scale, soap scum, grout haze and rust. Do not use acid product on marble, limestone and travertine surfaces. Do not use on soft metals such as aluminum and galvanized surfaces as irreversible damage may occur. If contact should occur, flush with water immediately.

DIRECTIONS

Floor must be clean of all loose dirt and debris. Old acrylic floor finish and heavy dirt build up should be removed with conventional stripper, degreaser, or general purpose cleaner.

Dilute product according to guidelines below:

LIGHT DUTY: Dilute product using 12 oz. per each gallon of water.

MEDIUM DUTY: Dilute product using 32 oz. per each gallon of water.

HEAVY DUTY: Dilute product using 64 oz. per each gallon of water or pre-wet floor using water and apply full strength.

Apply solution directly onto floor and spread with a mop or deck brush. Allow product to dwell for 5 minutes. Agitate cleaning solution using a low speed floor machine equipped with a nylon brush or manually with a deck brush. Recover dirty solution with a squeegee or wet-vac. Rinse floor using clean water. Allow floor to dry.

PRODUCT SPECIFICATIONS

Color:	Amber	Detergency:	Good
Odor:	Light	Solubility:	Complete with water
pH:	< 1.0	Flash Point:	None
Viscosity:	Water thin	Storage/Stability:	2 Years
Foam:	Moderate	Weight Per Gallon:	9.13 lbs. per gallon
Phosphate:	None
