

A better way to clean.

## The EB 30/1 ROAM

Quicker than a vacuum cleaner.  
More effective than a broom.

### Whisper-Quiet

When a vacuum is too inconvenient and a broom is too time consuming, Tornado's® EB 30 will deliver the clean sweep you need in just minutes. The battery operated, motorized EB 30 mini-sweeper operates at 56 dBa (lower than the volume level of normal conversation) and can be successfully used in hotels, restaurants, retail stores, dressing rooms, movie theaters, cafeterias, waiting rooms, and building lobbies where quiet operation is a necessity.

### Operator Friendly

At 12" wide, it has a nicely sized cleaning path while remaining maneuverable. At just a shade over 4 pounds, it's extremely lightweight, thereby lessening operator fatigue and allowing for superior mobility and flexibility of use. The handle is adjustable with an ergonomic grip and can be locked into an upright position for easy storage.

### Staying Power

The EB 30/1 comes with a Li-Ion-battery that has almost twice the run time compared to the previous battery! Not only that, but the charge time is half as long as before, reducing down time and increasing productivity. The addition of the Li-ion battery makes the EB 30/1 the ideal sweeper for hospitality, retail, theaters and many more applications!

### Durable

The powerful brush head sweeps debris into an easily removable 1-liter (0.26-gallon) bin. The EB 30 is incredibly durable and includes a rugged polypropylene base with built-in injection molded rubber bumper to minimize damage to walls and furniture.

Make sweeping chores fast, efficient and noise-free. The EB 30. Quicker than a vacuum cleaner, more effective than a broom.

**And it's only from Tornado.**

The new EB 30. The battery-powered electric broom for flexible, interim cleaning.

1. Ergonomic Grip

Enclosed grip allows for multiple hand positioning.

2. Telescopic Handle

Adjusts quickly and easily to accommodate users' height.

3. Universal joint

Allows for flexible operation. Easy maneuverability in small spaces and hard-to-reach areas. Handle can be locked into the upright position for compact storage and can be removed from the base attachment.

4. Built to Last

Rugged polypropylene base with non-marking injection molded rubber bumper built right in.

5. Li-ion battery

The Li-ion battery is simple and efficient enough for any user to maximize cleaning time with minimal down time. \*Additional batteries can be purchased, along with a battery quick-charger that takes only 90 minutes to charge.

6. Foot activated on/off switch

Eliminates stooping and makes use effortless, convenient and fast.

**Changeable roller brush**  
Requires no tools and allows hairs, threads, etc. to be removed quickly and easily

**Flexible, universal joint**  
Handle articulates, providing superior maneuverability

**Easy to remove dustpan**  
Provides convenient rear access with large capacity

**Easily installed battery**  
Changing batteries is a breeze
