## dalial)

- Print this page and ensure page scaling is set to $100 \%$ or none.
- Once printed double check the scale at the bottom.
- Use one of your existing rings and compare it to the circles to the right to find your size
- Find the white inner circle that best matches the inside of your ring
- Use the diameter measurements to confirm.
- If you still have your doubts, contact us.

Use a credit card or ruler to double-check the page scale here
