Validity of the booked individual lessons:

In principle, a single hour paid at the standard rate is valid for one year from the first training session before it expires. Offer prices and season tickets are valid for a period of 6 weeks.

Cancellation:

A cancellation of a standard tariff is granted 24 hours before the training date and will be dated to a new date. Offer prices and season tickets can no longer be canceled after an appointment has been made. After payments for a single hour, as well as for time tickets, no refunds can be given.

Payment:

Individual lessons and time tickets for individual training must be paid in full and in advance. As a member, the payment of the membership fee must also be made on the first or fifteenth of the month, as indicated, and only counts as paid from the date when the money has been credited to the account or paid on site. In the event of default, we unfortunately have to charge a reminder fee of five euros per reminder.

Training:

The booked training can deviate from the desired times and can be changed by the trainers. A single lesson lasts up to 60 minutes (depending on individual skills and level of training). Each appointment is billed as a full hour.

Furthermore, it should generally be pointed out again that this is a contact sport, where it can happen that you can injure yourself. We also accept no liability for physical or other injuries that may occur.
