

# SIZE CHART

## ★ PRO SIZING TIPS

- Print this size chart on letter-sized paper (8.5"x11") Print at "Actual Size" do not select "Fit to Print" in your printer options. (See Credit Card Box to double check your print scale.)
- There should be about 1 finger space (approx 1 cm) between your child's toes and the front of the shoe for adequate fit.
- Make sure you are wearing a sock when measuring!
- Be sure to measure both feet!
- When in doubt, wiggle room is best. Growing feet and toes need room to properly develop. If your child is between sizes, choose the larger size.

CREDIT CARD BOX FOR SCALE REFERENCE

Make sure you are printing at 100% and not "fit to print".
