Climbing Playset

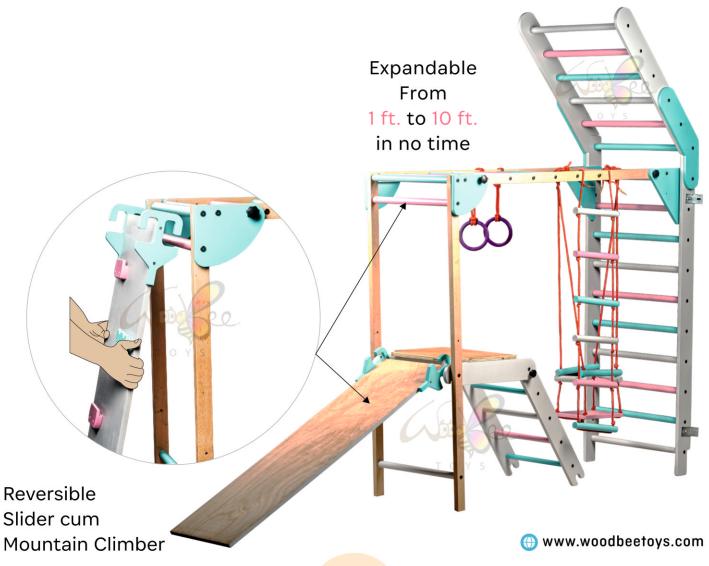

Jungle GYM WALL-MOUNTED & FOLDABLE

For Space Constraint Homes...

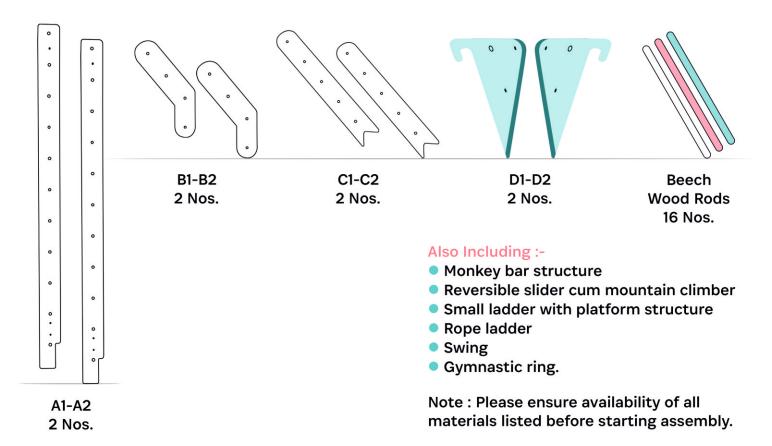

Assembly Instruction Manual

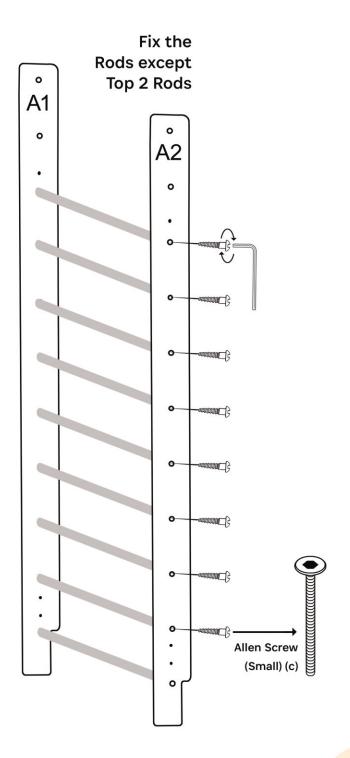

Jungle GYM
WALL-MOUNTED & FOLDABLE
Tamble Instruction Manual

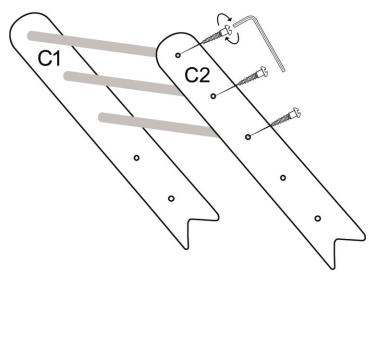

Step 1

Fix the beech wood rods to the frames A1-A2 and C1-C2 with allen screw (small) (c) using allen key (a)

Fix the Top 3 Rods First

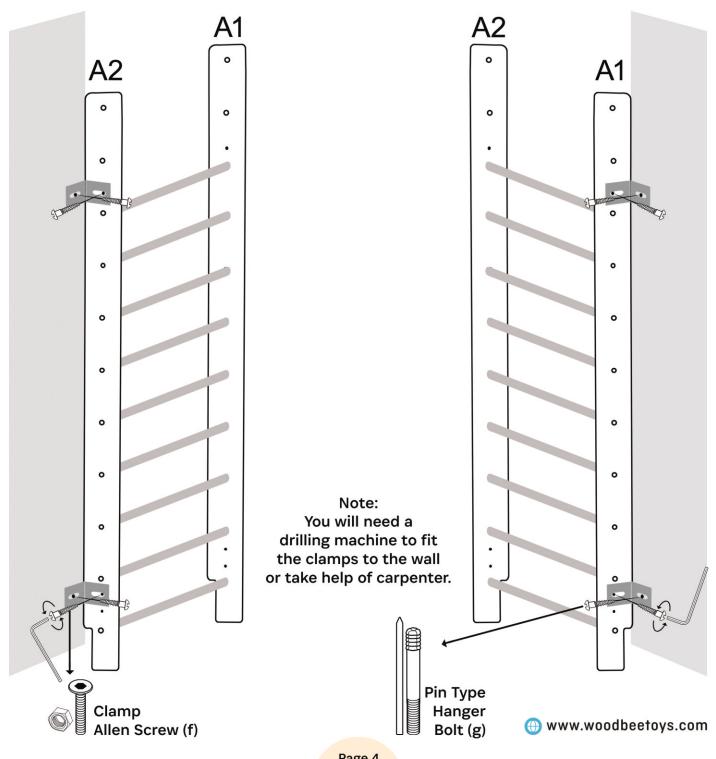

Step 2

Use the wall mounting clamps provided to fix A1-A2 structure to the wall. Use the given clamp allen screw (f) and pin type hanger bolt (g) on to the frame and wall respectively.

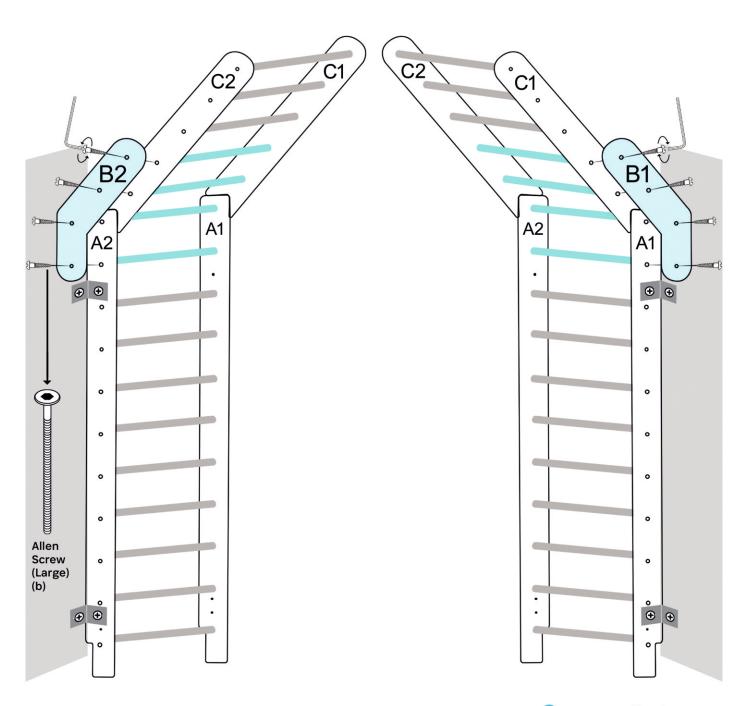

Assembly Instruction Manual

Step 3

Place the structure C1-C2 (assembled in step: 1) on top of A1-A2. Use screw (large) (b) to fix B1 with A1 -C1 frame and beech wood rods. Similarly use allen screw (large) (b) to fix B2 with A2-C2 frame and beech wood rods.

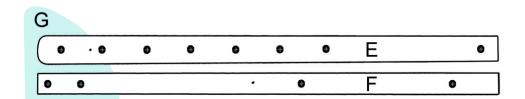

Assembly Instruction Manual

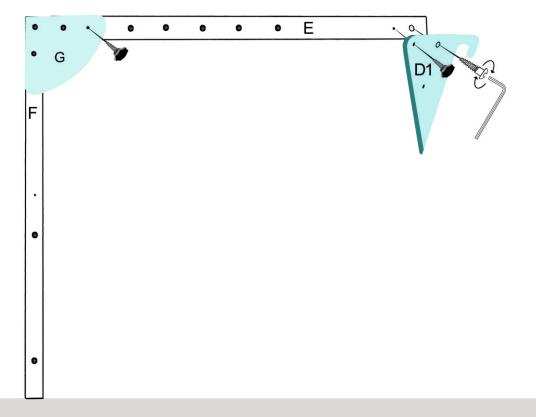

Step 4

Take this monkey bar structure and open it as shown. Use knob screw (d) to fix frame E and F at 90° at the hole provided in frame G on both sides.

Step 5

Use knob screw (d) and allen screw (large) (b) to fix frame E with frame D as shown below.

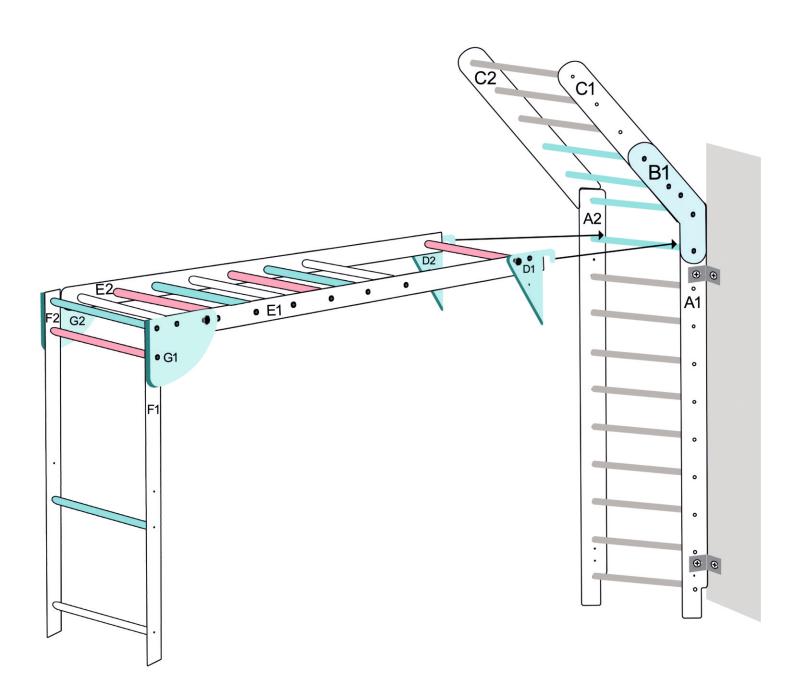

Step 6

Hook the entire structure D-E-F-G on to the wall mounted frame as shown below.

Step 7

Open the small ladder-platform structure and fix the angle using the knob screw (d) as shown below.
