Note :

- Arrange the panels as shown above.
- Please ensure availability of all materials listed before starting assembly.

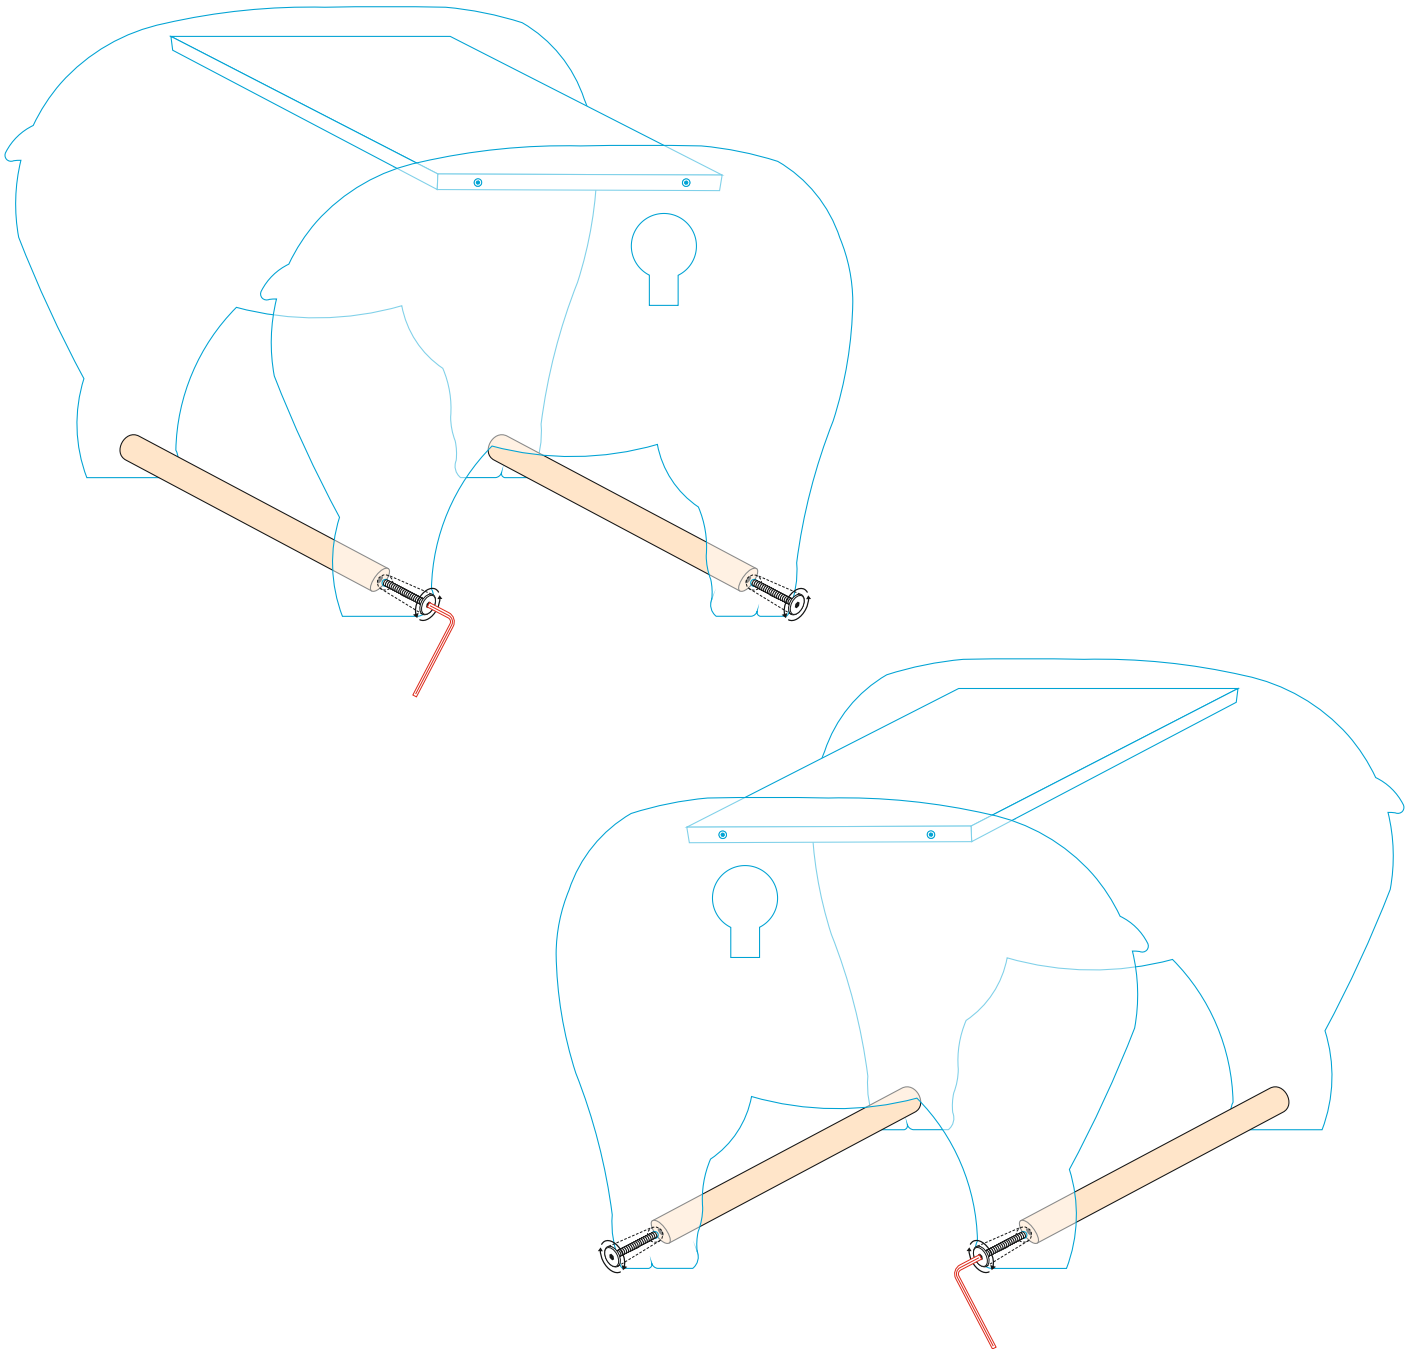

Step 1

The seat panel (III) should be attached to the two elephant body panel (II) with the allen bolts as shown in the picture.

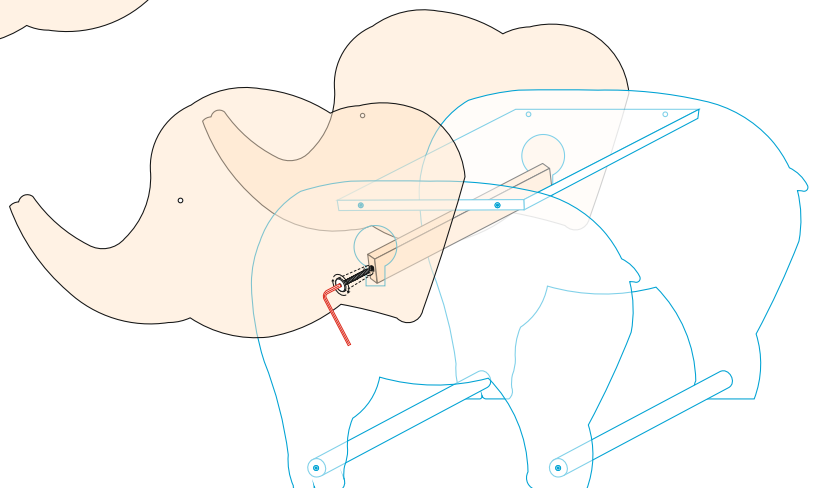

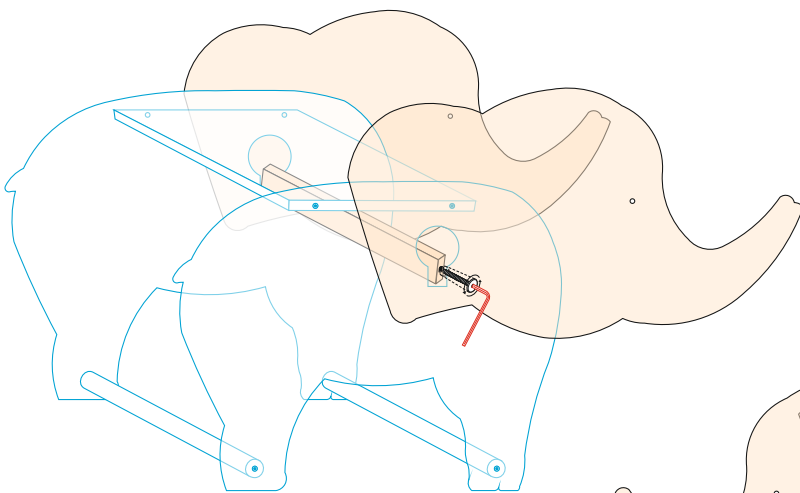

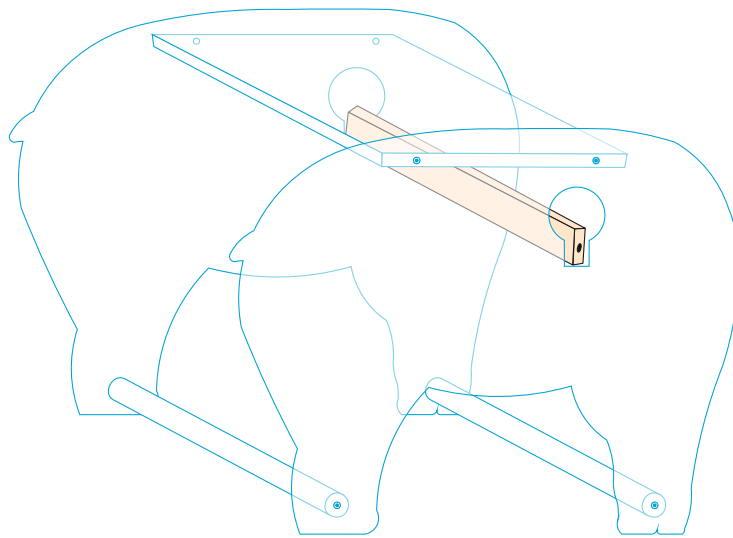

Step 2

Attach the two beech wood rods (VI) to the body panel structure, use allen bolts as shown in the picture.

Step 3

Insert the connector panel (V) through the holes provided on the assembled body structure. Then attach the two elephant heads (I) by using allen bolts as shown in the picture.

Step 4

Attach the back support panel (IV) to the body panel structure by using allen bolts as shown in the picture.
