Collinite

Safety Data Sheet

3-Dec-15

Issue Date: **Revision Date:**

Product Number900Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.UseNormal Spray Up or Hand Lay Up MoldingIf Inhaled Move person into fresh air. If not breathing give artificial respiration. Consult a physician.CompanyCollinite Corporation 1520 Lincoln Ave Utica, NY 13502In case of skin contact Wash off with soap and plenty of water. Consult a physicianTelephone315-732-2282In case of eye contact Flush eyes with water.2,HAZARDS IDENTIFICATIONIf swallowed Do NOT induce vomiting. Never give anything by mouth to an unconsciou person. Rinse mouth with water. Consult a physician.GHS Label elementNoneMost important symptoms and effects both acute and delayed

Consult a physician.GHS ClassificationNoneMost important symptoms and effects both acute and delayed The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.
2, HAZARDS IDENTIFICATION Flush eyes with water. 3 If swallowed GHS Classification None GHS Label element None Signal Word None Most important symptoms and effects both acute and delayed The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.
2, HAZARDS IDENTIFICATION If swallowed GHS Classification None GHS Label element None Signal Word None Most important symptoms and effects both acute and delayed The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.
GHS Classification None Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician. GHS Label element None Most important symptoms and effects both acute and delayed Signal Word None The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.
GHS Label element None Signal Word None Most important symptoms and effects both acute and delayed The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.
Signal Word None Most important symptoms and effects both acute and delayed The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.
Signal Word None The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.
Indication of any immediate medical attention and special treatment
Precautionary Statements needed
P273 Avoid release to the environment. No date available
P280 Wear protective gloves/protective clothing/
eye protection/face protection. 5, FIRE FIGHTING MEASURES
P301 + P310 IF SWALLOWED: immediately call a POISON CENTER or doctor/physician. Suitable extinguishing media
P331 Do NOT induce vomiting. Dry sand, dry chemical, alcohol-resistant foam, CO ₂
P370 + P378 In case of fire: Use dry sand, dry chemical, or
alcohol-resistant foam for extinction. Special hazards arising from the substance or mixture.
P403 + P235 Store in a well-ventilated place. Keep cool. Oxides of carbon with combustion
P405 Store locked up.
P501 Dispose of contents/container to an approved Advice for firefighters
disposal plant. Wear self-contained breathing apparatus for firefighting if necessary.
Hazards not otherwise classified (HNOC) or not covered by GHS Further information
none Use water spray to cool unopened containers.
3, COMPOSITION/INFORMATION ON INGREDIENTS
Substances Mixture
Hazardous ingredients
Chemical Name Petroleum distillates, hydrotreated light
CAS # 64742-47-8
EC # 265-149-8
Index # 649-422-00-2
Concentration 40 - 80%

6, ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures Use personal protective equipment. Avoid breathing vapors, mist, or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. For personal protection see section 8.

Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

Methods and materials for containment and cleaning up

Contain spillage and then collect with a electrically protected vacuum cleaner or by wet-brushing. Place collected material in container for disposal according to local regulations (see section 13). Keep in suitable closed containers for disposal

For disposal see section 13.

7, HANDLING AND STORAGE

Precautions for safe handling Avoid contact with skin and eyes. Avoid inhalation of vapor or mist.

Conditions for safe storage including any incompatibilies

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

8, PERSONAL PROTECTION/EXPOSURE CONTROL

Control Parameters

Chemical Name
CAS #
EC #
Index #

Petroleum distillates, hydrotreated light 64742-47-8 265-149-8 649-422-00-2

OSHA Occupational Exposure Limits TWA

500 ppm 200 mg/m³

Personal protective equipment

ACGIH Threshold Limit Value TWA

Eye/Face protection

Use goggles. Eye wash stations should be available.

Skin protection

Use chemical resistant gloves. A safety shower should be available. Wash with soap and water if skin contact occurs.

Respiratory protection

Maintain adequate ventilation to comply with regulatory limits. If limits are exceeded use NIOSH approved breathing apparatus.

Control of environmental exposure

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

9, PHYSICAL AND CH	IEMICAL PROPERTIES	10, STABILITY AND REACTIVITY
Appearance	Yellowish, white solid	Reactivity No data available
Odor	Pungent	Chemical stability Stable under recommended storage conditions
Odor threshold	no data available	Possibility of hazardous reactions
рН	5	No data available
Melting point/freezing point	56 - 62 ºC	Conditions to avoid Heat, flames and sparks
Boiling point	220 - 250 °C	Incompatible materials
Flash point	> 93.3 °C TCC	Strong oxidizing agents
Evaporation rate	no data available	Hazardous decomposition products Oxides of carbon
Flammability	Not flammable	11, TOXICOLOGICAL INFORMATION
Upper explosion limit	no data available	Acute toxicity No data available
Lower explosion limit	no data available	Skin corrosion/irritation
Vapor pressure	no data available	Rabbit: no skin irritation 4 hr
Relative vapor density	no data available	Serious eye damage/irritation Rabbit: no eye irritation
Specific Gravity	0.82	
Solubility	Insoluble in water	Respiratory or skin sensitization Draize Test - Guinea pig: does not cause skin sensitization
Partition coefficient: n-octanol/water	no data available	Germ cell mutagenicity Reverse mutation assay - S. typhimurium: negative
Auto ignition temperature	no data available	Carcinogenicity IARC Group 3, not classifiable as to its carcinogenicity to humans.
Decomposition temperature	no data available	NTP No component of this product present at levels greater than
Viscosity	Pasty solid	or equal to 0.1% is identified as a known or anticipated carcinogen.
Explosive properties	not explosive	OSHA No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen.
Oxidizing properties	non-oxidizing	Reproductive toxicity
Molecular weight	no data available	No data available
VOC Content (%)	no data available	Specific target organ toxicity, single exposure No data available
		Specific target organ toxicity, repeated exposure No data available

n r

12, **ECOLOGICAL INFORMATION** 15, **REGULATORY INFORMATION** Toxicity to fish SARA 302 Components No data available No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302. Toxicity to daphnia and other aquatic invertebrates SARA 313 Components Not toxic This material does not contain any chemical components with know CAS Persistence and degradability numbers that exceed the threshold (De Minimis) reporting levels established No data available by SARA Title III, Section 313. Bio accumulative potential SARA 311/312 Hazards None No data available Mobility in soil **California Proposition 65 Components** No data available None known Results of PBT and vPvB assessment 16. Other Information Not available and not required 0 HEALTH HMIS rating Other adverse effects FLAMMABILITY 1 PHYSICAL HAZARD 0 An environmental hazard can not be excluded in the event of unprofessional unprofessional handling or disposal. NFPA rating 13, **DISPOSAL CONSIDERATIONS**

Product

This material may be burned in a chemical incinerator equipped with an afterburner and scrubber. Offer surplus and non-recyclable solutions to a licensed disposal company.

Contaminated packaging

Dispose of as unused product.

TRANSPORT INFORMATION 14,

DOT	Not regulated
TDG	Not regulated
ΙΑΤΑ	Not regulated
IMDG/IMO	Not regulated

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
