Stoko Supportive Tight	1	\$498.00	\$498.00

Subtotal **\$498.00**

The Stoko Supportive Tight is a knee brace registered as a Class 1 Medical Device through Health Canada and the FDA. It is designed for bilateral support of the knees (both left and right). It is intended for stabilization, support, and protection of the knee. It is indicated for knee pain due to instability, knee instability, knee ligament instabilities (mild to moderate ACL, MCL, and LCL), knee strains and sprains, knee osteoarthritis (OA), and patellofemoral pain syndrome (PFPS). Application of use will vary from patient to patient. The Stoko support system is made up of ultra-high molecular weight braided polyethylene (UHMwPE) fiber cable and rigid nylon control dials.

Price is quoted in CAD and does not include taxes. No purchase has been made.
