Procusini  
mini

**Guaranteed success or experiment yourself?**

With Procusini mini, both are possible!

**Simple and safe - with  
guaranteed success**

Simple operation and  
and guaranteed success are  
more important to you  
than using your own  
chocolate?

Then the Procusini mini  
3D Choco Refills are just  
the thing for you.  
This is how it works:

Insert Procusini mini 3D  
Choco Refill and off you go.  
With guarantee of success!

**Warning - only for  
professionals and  
experts!**

**Chocolate is the  
most demanding  
food in 3D printing**

Change individually  
temperature, speed  
and flow.

You can start with your own  
tempered chocolates of  
your choice.

You are responsible for  
the result.
