

# ASSEMBLY GUIDE

## REFERENCE:

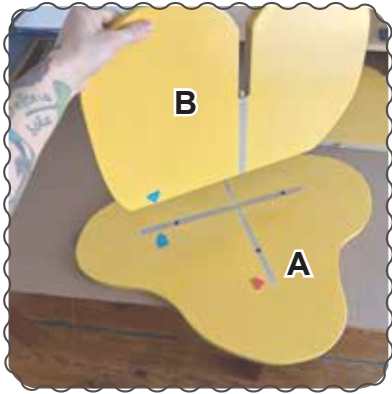

- A. Top
- B. Base 1
- C. Base 2

## APPROXIMATE TIME:

5 minutes

## STEP BY STEP:

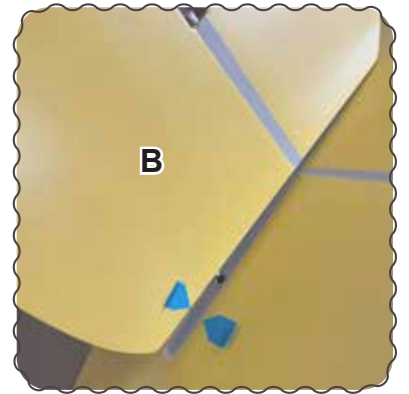

Next Page 

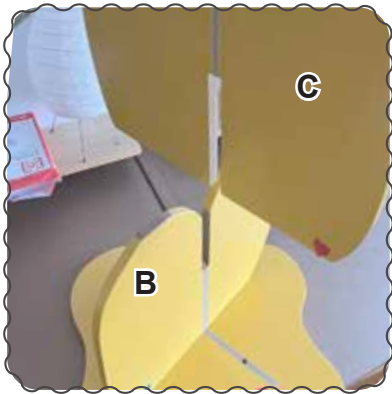

**STEP 1:** Align base 1 (B) with top, so that pegs align with holes and blue tape aligns with blue tap. Don't mind the exposed unpainted parts, they will not be visible on assembly.

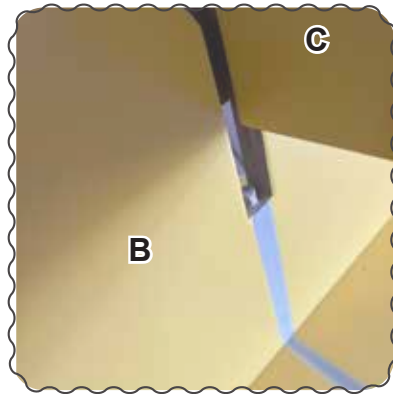

Close of of the pegs for reference.

**STEP 2:** Insert base 1 (B) into table top (A). Hold it steady.

**STEP 4:** Align base 2 (C) over base 1 (B) so that they intersect and the red arrow on base 2 (C) aligns with the red arrow on the top (A).

**STEP 5:** Insert base 2 (C) into table top, intersecting base 1 (B). Gently wiggle each section into place so that the pegs interlock.

**STEP 6:** Remove tape and while supporting the base with one hand, invert the table. **MAKE SURE TO HOLD BOTH THE BASE AND THE TOP SO THEY DON'T FALL APART!!!**
