

유자 + 한라봉 tables

유자 + 한라봉 means Yooja + Hallabong

These are two of my favorite fruits, so I turned them into side tables. They are sold individually but happiest as a pair. They come with removable coasters for drinks that are the leaves of the fruit. The legs are made of steel, are removable and have adjustable bottoms up to 3/4'. The table top is made from high-quality NAF fiber board using 100% pre-consumer recycled and recovered wood.

Install Instruction

1. Place table top upside down. You will see 4 plates with inserts. This is where you will screw in the legs.
2. Align each leg with the screw hole and screw in. Hand tight is fine. Do not screw to tight tho or you will damage threads of the screw.
3. Turn table over and place leaf on table-top peg. :)

Care and Misc Info

Your tables are coated in enamel, either orange or yellow. The coasters are also enamel, and have a cork bottom to protect the surface of the table top. The coasters are designed to hold beverages, but if the surface gets wet, wipe it down to prevent ring from forming. The same goes for the table, if it gets wet just wipe it down. Do not eat the table or any part of it. Nothing is edible.

Thank you for your purchase, ㄱㅅ! Please tag us on IG, we are a small studio and every share or story helps us spread the word and keep on making thing we love. If you have any questions please DM or email @studioflot alex@flotstudio.info
