

무궁화 Dining Table

Care and Misc Info

Your Dining Table is finished in enamel which is water resistant, however if you want to prevent rings or stains from forming, it is important to wipe the surface down and dry it when it is wet. Do not use steel wool, or harsh soaps. Do not drag the table, instead pick it up and place it where you want to put it. Over time, the Lazy Susan may spin slower, this can be fixed by adding a drop of oil (any kind will do) to the ball bearings. DO NOT EAT ANY PART OF TABLE.

무궁화 means Hibiscus.

This is a dining table for 2, or up to 4 people in the shape of Hibiscus which is the national flower of Korea. You may also know the name from this childrens song on a popular tv show: '무궁화 꽃 이 피었습니다...'

Each table comes with a rotating lazy susan that is removable, and everything is finished in gloss enamel. The bottom of the table is made from steel with a ring at the base for grip.

The table top is made from high-quality NAF fiber board using 100% pre-consumer recycled and recovered wood. Everything is finished with enamel, and poly for water resistance.
