

Constellation Kaleidoscope Instructions

Build & Fly: Constellation Kaleidoscope

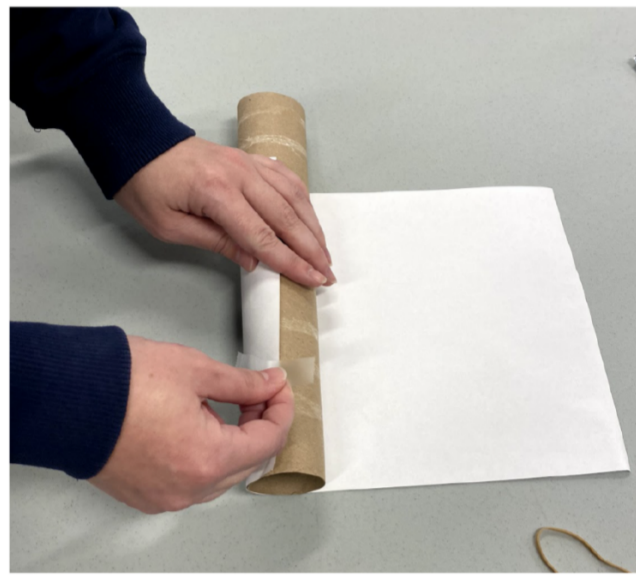

Replicate a constellation or create your own to view at any time!

Instructions:

Materials: Paper towel tube, printer paper, tinfoil, template (optional), rubber band, paper clip (bent), tape, markers (optional)

Step 1: Wrap the paper towel tube in the sheet of printer paper. Secure with tape.

Step 2: Put tinfoil on the end of the tube with paper. Secure with rubber band.

Step 3: Using a template (or your imagination), poke holes in the top of the tinfoil with the paper clip.

Step 4: Hold your finished product up to the light, looking through the end that doesn't have paper on it. Decorate if desired.
