

High-Flying Kites Instruction

Build & Fly Challenge: High-Flying Kites

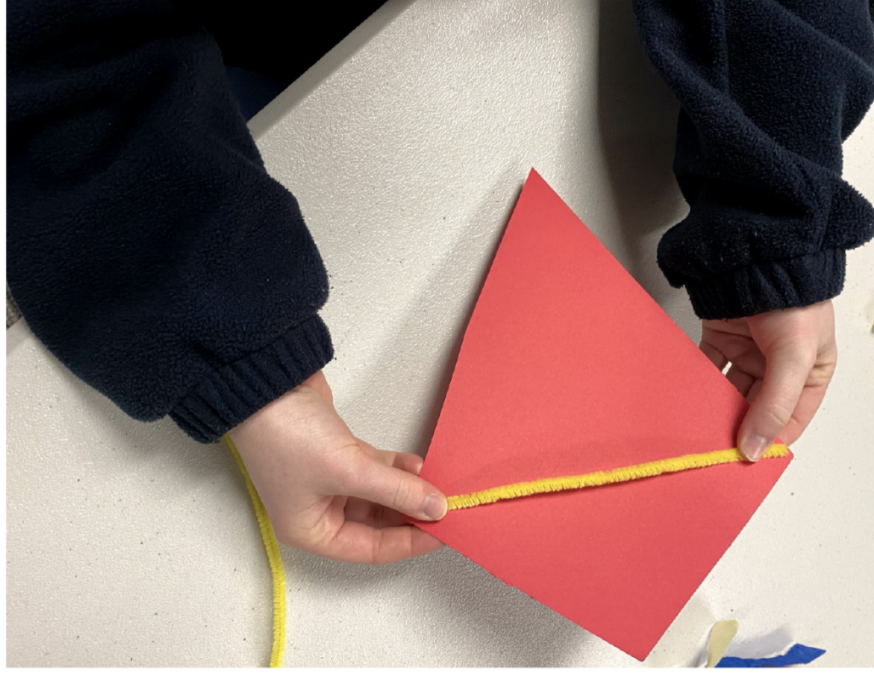

Your challenge is to construct and launch a high-flying kite.

Instructions:

Materials: Paper kite template, string, pipe cleaners, tape, ribbon, streamers, scissors, tape, markers (optional)

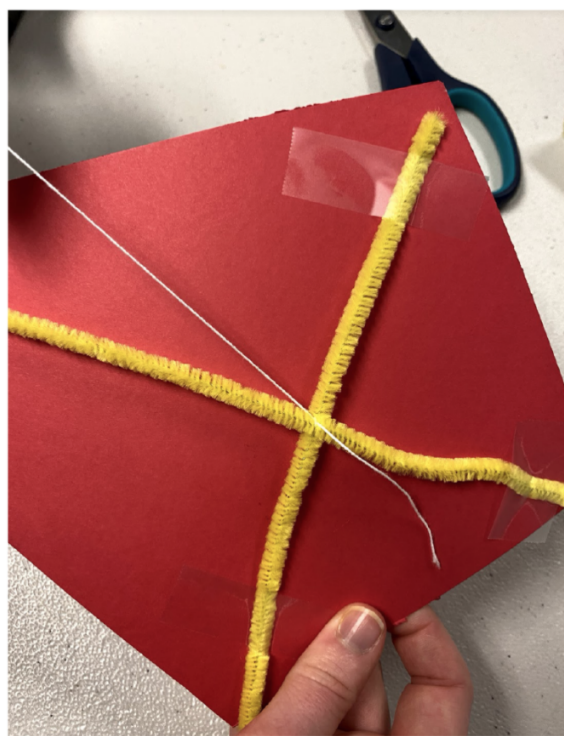

Step 1: Pick a pipe cleaner and tape it across the back of the kite horizontally.

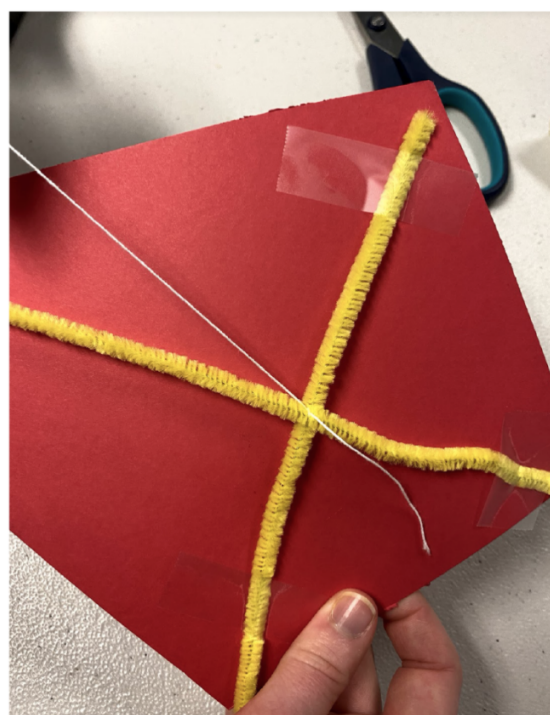

Step 2: Take a second pipe cleaner and make a 't'. Secure with tape.

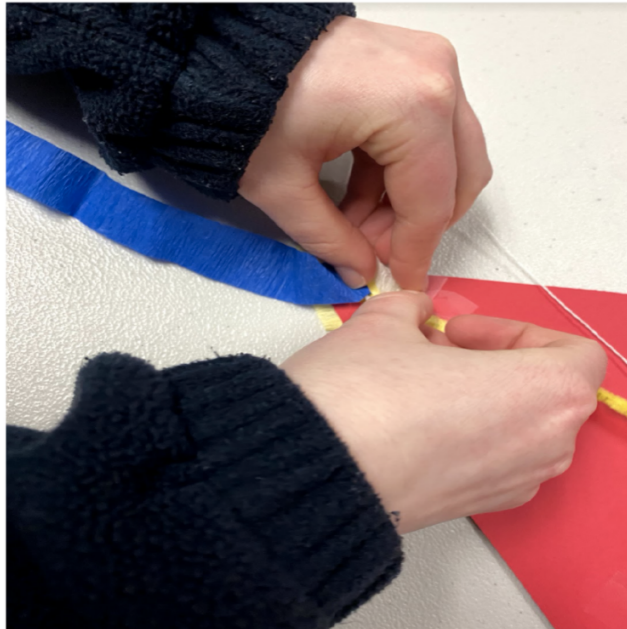

Step 3: Thread the string under the cross section between the two pipe cleaners.

Step 4: Tie the string around the two pipe cleaners. Make sure it's tied tightly.

Step 6: Tape streamers and/or ribbon to the bottom point of the kite.

Step 7: You're finished! Add decorations if desired.
