Parachute Instructions

Build & Fly Challenge: Parachutes
Learn about air resistance with parachutes!

Instructions
Materials: Small paper cup, tissue paper cut into a circle or a coffee filter, 2 pieces of string, hole puncher, scissors, tape, toy optional

Step 1: Punch 4 holes around the edge of the paper cup, evenly spaced.

Step 2: Thread the one string through the hole in the cup and out the hole across from it. Repeat with the second string, so that the string make an X.

Step 3: Turn the cup upside down on the tissue paper. Tape the end of each string to the tissue paper.

Step 4: Turn parachute over and drop! Optional: add a small toy to your basket!
