# Rotocopter Instructions

**Build & Fly:** Rotocopters

Instructions:
**Materials:** Rotocopter template, paperclip, scissors

**Step 1:** Cut the solid lines above X and Y.

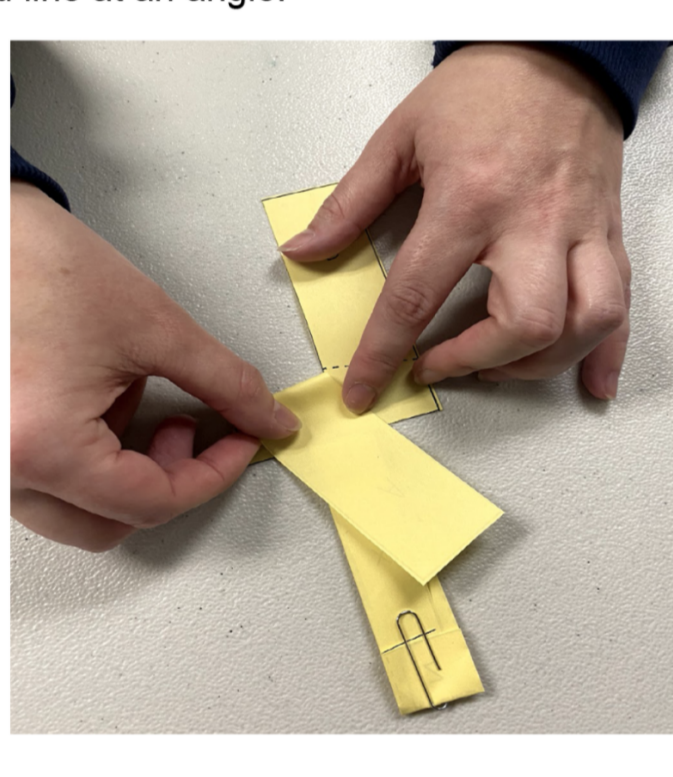

Step 2: Cut the solid line between A and B

Step 3: Fold Y and make a crease. Do the same thing for X.

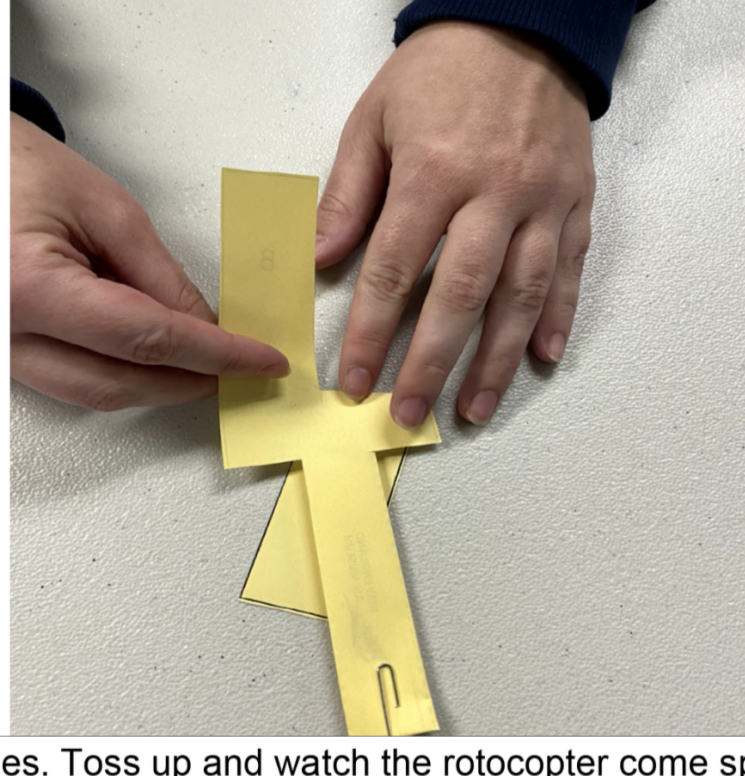

Step 4: Fold the bottom inch up. Secure with a paperclip.

Step 5: Fold A along the dotted line at an angle.

Step 6: Flip the entire thing over. Fold B along the dotted line at an angle.

Step 6: Shake out rotor blades. Toss up and watch the rotocopter come spinning down!
