# About MadRabbit

---

MadRabbit takes a journey to uplift the experience of Indian tech-savvy consumers, well-engineered with intuitive design and smart technology to improve the quality of day-to-day lives.

Our passion for connecting with our audiences binds us to a constant obsession to design and produce products challenging the status quo of everyone's tech journey.

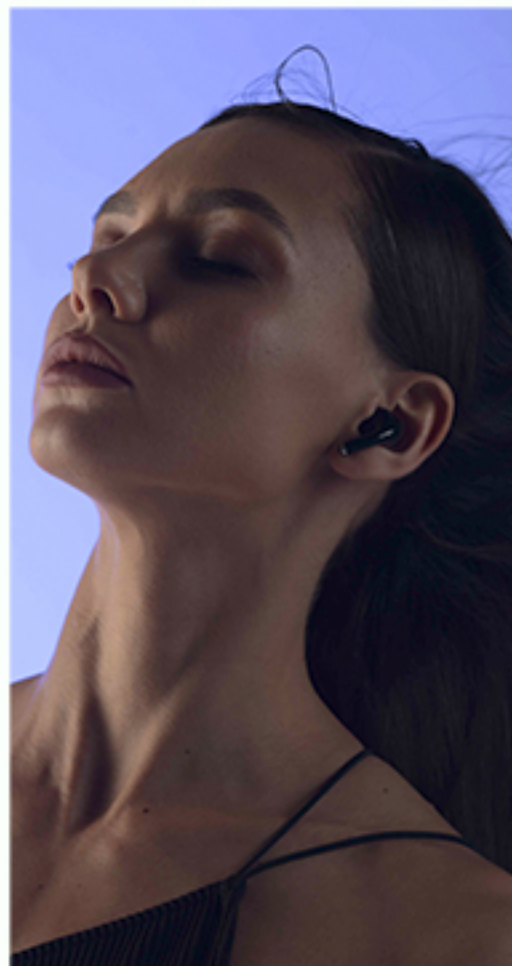

We are driven to the madness of surprising our consumers with constant tech advancement that has led our research and development team to be invested in future advancement.

We have perfectly engineered every component we build to keep our designs fluid, create a dynamic performance & open a whole new world of experience. In an effort to connect to human senses we have joined hands with the industry's leading R&D centers to curate the perfect balance between human and technology.

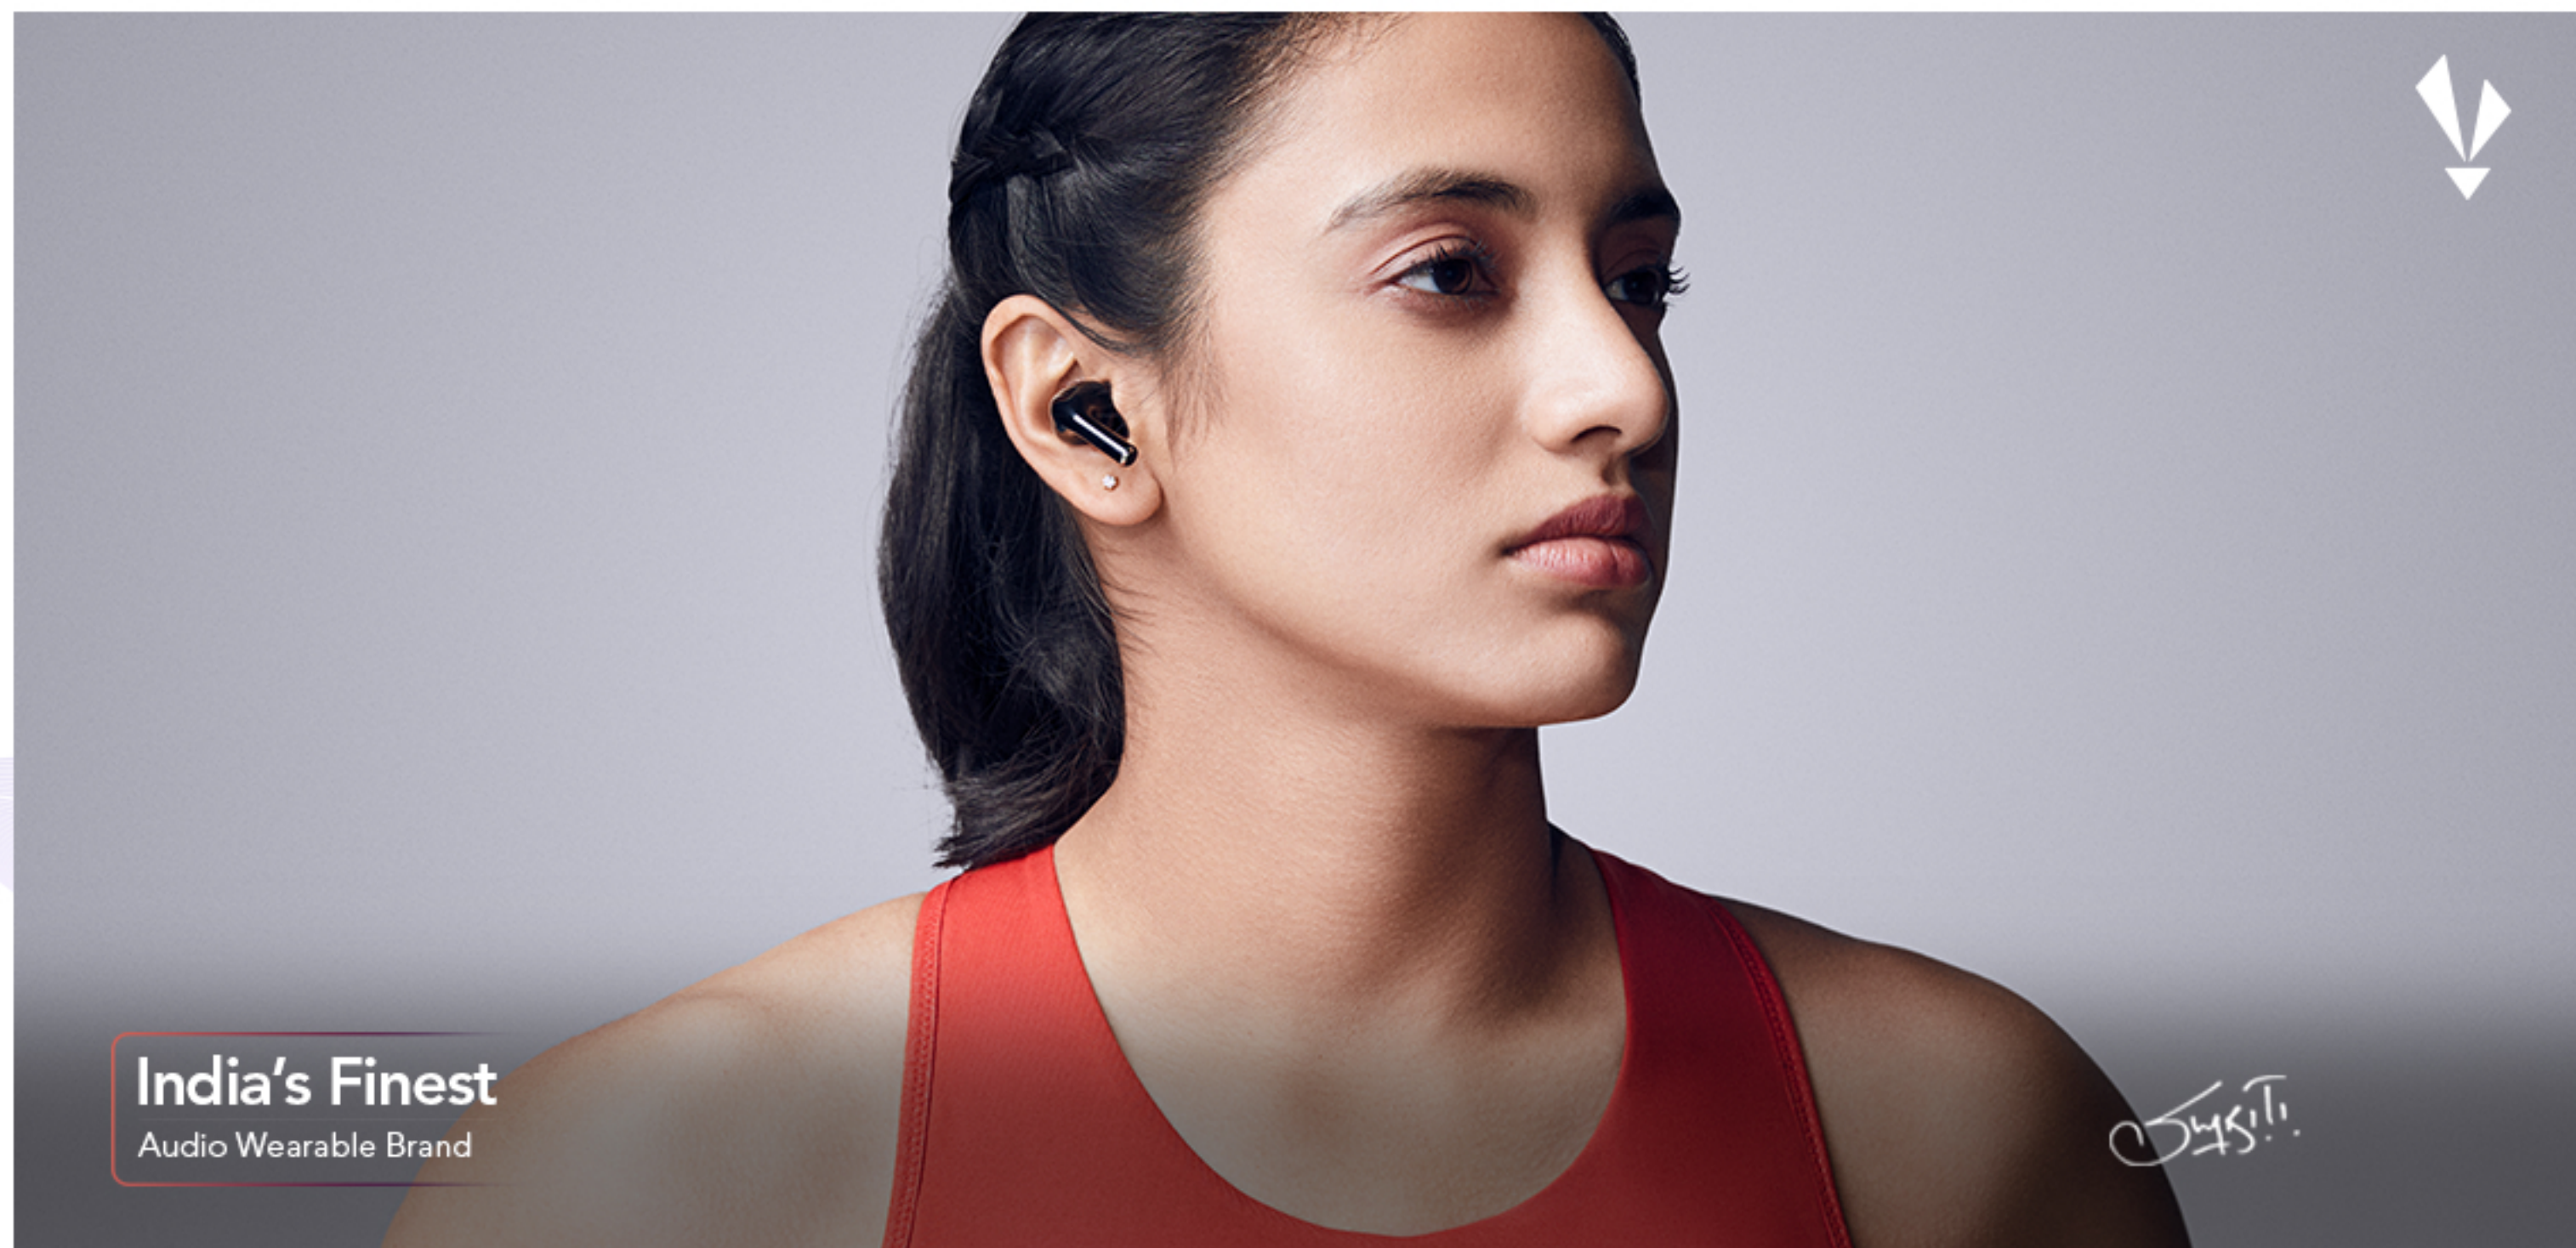

We started with WHY? We arrived at WHAT? Our ever growing quest is to evolve HOW?
