GETTING THE MOST FROM HUMIDIFIER

Tips:

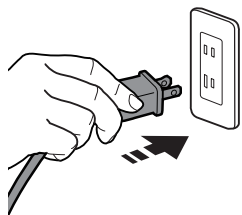

Closing doors and windows is conducive to reaching the desired humidity.

Getting Started

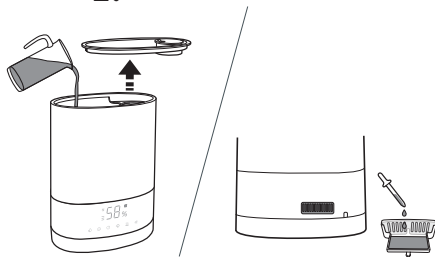

- Do not directly drip essential oil into water tank.
- Do not let water enter mist tube to avoid the damage to this appliance.
- Twisting the nozzle can adjust the direction of mist.
- Medium-level warm mist will be activated by default when this appliance is turned on again after power interruption.

1.

Connect this humidifier to a power source, it will enter standby mode. The LED display and night light will be on for 2 seconds then off.

2.

Filling Water

Remove the cover, and fill the water not exceeding the mist tube.

Adding Essential Oil

1. Press the essential oil tray to pop it up.
2. Drip some essential oil on the aroma pad.
3. Push back the essential oil tray until securely locked into place.

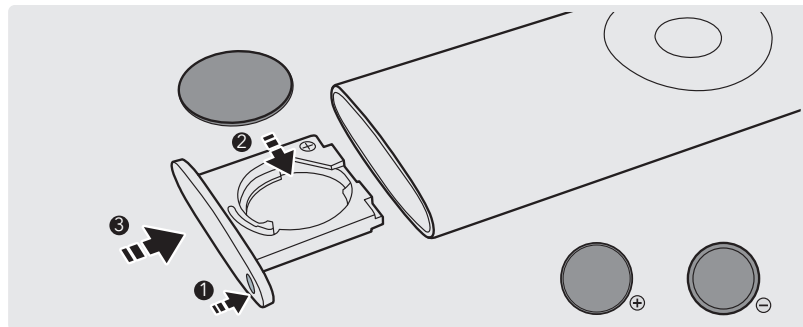

Note:

- When constant mode is activated, the humidifier will auto enter standby mode at the preset humidity and auto start working at lower than 5% of the preset humidity.
- When auto mode is activated, the humidifier will auto enter standby mode at 65% humidity and auto start working at lower than 60% humidity. Low, medium or high mist level will be activated automatically based on the environmental humidity.
- The LED display will be off in sleep mode. Tap any button to light it up.

Replacement of Batteries

- Replace with new batteries of the same type when replacement is required.
- When not using the remote control for a long time, please take out the batteries.
- DO NOT attempt to dismantle the batteries.
- DO NOT dispose the batteries in fire, batteries may explode or leak.
- DO NOT use rechargeable batteries.

- 1 Press the locking button to pop up the battery holder.
- 2 Replace the battery with the same type (CR2025, 3V), making sure the (+) side facing up.
- 3 Push in the holder until securely locked into place.

WARNING:

Do not ingest battery, Chemical Burn Hazard.

This product contains a coin/button cell battery. If the coin/button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used batteries away from children. If the battery compartment does not close securely, stop using this appliance and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention. The batteries contain materials, which are hazardous to the environment; they must be removed from the appliance before it is scrapped and that they are disposed of safely.

04

CLEANING AND MAINTENANCE

Soothing Mist for
Sweet Dreams

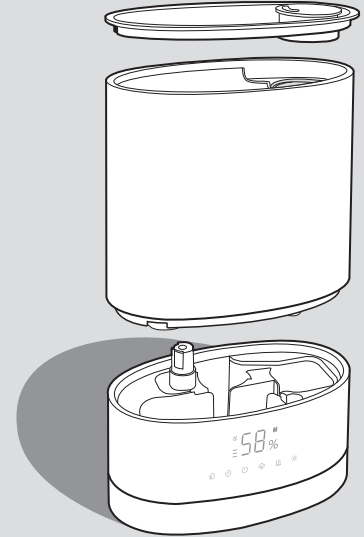

- Before cleaning, turn this appliance off and unplug it.
- Do not let water splash into the air outlet.

- Remove the water tank and its cover to rinse under tap water.
- Fill some white vinegar or lemon water in the reservoir and let it sit for about 15 minutes, then descale with a cleaning brush.

- Wipe dry with a clean, soft cloth or paper towel.
- Store it in a cool, dry location when not in use for long.

05

TROUBLE-SHOOTING

Soothing Mist for
Sweet Dreams

Remote control is not working.

- Make sure this appliance is connected to a powered electrical outlet.
- Remove the insulating pull tabs prior to use.
- Check that the remote control is powered on and move the obstacles between this appliance and the remote.
- Operate the remote control near or in front of this appliance.

The humidifier does not work.

- This appliance will auto shut down if water is insufficient.
- The water tank isn't well assembled.
- In auto mode, this appliance will enter standby mode at 65% humidity.
- When constant humidity is activated, this appliance will enter standby mode at preset humidity.

There is no air humidification.

- Air inlet/outlet is blocked.
- The water in water reservoir is nearly used up.
- Your room might have too much ventilation. Close doors and windows.

The mist produces an unpleasant smell.

- Change water regularly to avoid hard water deposits.
- Clean this appliance, and leave it at a shady and cool place for 12 hours with the cover detached.

The auto mode is not available.

Water has entered the sensor. In this case, the medium mist level will be activated automatically. 2-8 hours later, auto mode will be available. If not, unplug this appliance and contact Paris Rhône Customer Support.

The troubleshooting guide addresses the most common problems. If problems persist, feel free to contact the Customer Support at
