SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed, including the following:

- Read all instructions.
- Do not touch hot surfaces. Use handles or knobs.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair or adjustment.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock or injury to persons.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into wall outlet. To disconnect, turn any control to “off”, then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- To reduce the risk of injury, do not drape cord over the counter top or table top where it can be pulled on by children or tripped over unintentionally.

SAVE THESE INSTRUCTIONS

HUSBOLD HOUSEHOLD USE ONLY

a) A short power-supply cord is to be provided to reduce risks resulting from becoming entangled in or tripping over a longer cord.

b) Longer extension cords are available and may be used if care is exercised in their use.

c) If an extension cord is used:

1. The marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance.
2. The longer cord should be arranged so that it will not drape over the counter top or table top where it can be pulled on by children or tripped over.
3. The extension cord should be a grounded type 3-wire cord.

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.

CAUTION: Risk of injury, any other servicing should be performed by an authorized service representative.

KNOWING YOUR ELECTRIC KETTLE

Specifications

- Voltage: 120V 60Hz
- Power: 1200W
- Capacity: 1.8L / 32.3OZ

LED Display

- Temperature
- Keep Warm
- Tamper presets

BEFORE FIRST USE

1. Wash and dry the kettle thoroughly.
2. Fill the kettle with fresh tap water and boil water for several times to desalinate.
